Dear Kosher Consumer

Welcome to the Kashrut Authority guide to Pesach 5785/2025. The purpose of this guide is to provide you with everything you need to know to enable you to enjoy and observe Pesach in full.

For the seven days of Pesach (eight days in the diaspora), the Torah forbids Jewish people to consume or even possess *Chametz*. *Chametz* that one is not permitted to eat is any food that is made up of or contains any of the five grains - wheat, barley, spelt, oats and rye - that has been mixed with water and has been allowed to stand longer than 18 minutes. Foods included in this prohibition range from bread to any beverage distilled from these grains and includes mixtures that have the smallest amount of *Chametz* including media used in the laboratory in growing cultures and even pet food.

The first part of our directory deals with food items and other products which do not contain *Chametz* and may be used on Pesach.

The second part is a guide to preparing the kitchen for Pesach.

The third part outlines the mitzvah of disposing of *Chametz* from one's home.

The final part explains how the mitzvot of the Seder should be performed.

For the purpose of clarity, our Kosher for Pesach products directory is divided into five specific sections this year:

SECTION 1: CERTIFIED KOSHER FOR PESACH

These are products that have been investigated and formally supervised especially for Pesach. They represent the highest standard of Kashrut as applicable to kosher for Pesach. Other than raw foods some people purchase only these products for Pesach. Because the Code of Jewish Law encourages people to be especially strict on Pesach some people have a custom to use only kosher for pesach certified items for Pesach

Only items with a "Kosher for Pesach" sign which also bears the name or symbol of the supervising authority printed on the package or container should be used as proof of acceptability for Pesach. It is the customer's responsibility to ensure that all articles purchased are indeed properly endorsed by a reliable authority and are Kosher for Pesach. One should not rely on the shopkeepers, however well-intentioned they may be. Similarly Pesach sections in Supermarkets such as Coles, Woolworths, Harris Farm or IGA etc may have *Chametz* items inadvertently placed in them. "Buyers should always Beware"

SECTION 2: **KOSHER FOR PESACH – NOT CERTIFIED**

These are products that while not being formally certified for Pesach have been determined to be of a standard that is appropriate for the fully observant kosher consumer even in the first instance. They are products that are inherently kosher for Pesach or the possibility of contamination with *Chametz* is considered insignificant.

SECTION 3: **CHAMETZ FREE**

These are products that have been investigated and found to be free of *Chametz*, but are not certified as such and are not up to a standard generally practiced by international kashruth agencies. These products are listed for use by persons who may not have access to certified kosher for Pesach products or are not yet ready to take upon themselves the stricter approach.

SECTION 4: **DETERGENTS AND OTHER INEDIBLES**

These are products that are either inedible or not for human consumption such as detergents or plastic plates. These are products that because of their very nature do not necessarily pose a kosher for Pesach problem and do not need formal kosher certification.

SECTION 5: **MEDICINES AND BABY FOODS**

These are products that are of course fit for human consumption but because they are for infants or people who are unwell attract their own legitimate leniencies.

Each of these sections will be clearly delineated in this year's directory.

Ashkenazim do not eat Kitniyot during Pesach due to its similarity to *Chametz*. This includes rice, corn, legumes - beans, peas and (according to our custom) peanuts. Ashkenazim must therefore carefully read all food labels even with supervised products to ensure that the product does not contain Kitniyot and are not kosher certified just for Sephardim. This is a common practice for products imported from Israel.

The Kashruth Authority has dedicated several pages of Kitniyot products for the benefit of the Sephardi community. We have worked together with the "Badatz Bet Yosef" in Israel and there are kitniyot products manufactured in Australia under our supervision that are now sold in Israel for Sephardim with the stamp of the badatz bet Yosef.

PART 5: WHEN EREV PESACH FALLS ON SHABBAT

This year 5785 - 2025 the day before Pesach (Erev Pesach) falls on shabbat April 12. Please see this section for guidelines as to how one should perform the mitzvot of Erev Pesach this year.

This booklet is the hard work of all of us at the KA. We are confident as to the accuracy of the information contained therein, however please check our website as we get closer to Pesach in case there are changes or alerts that are as a result of information that has come to hand after publication.

If there are any items not covered in our booklet, or if there are specific questions you need answered please do not hesitate to "join the conversation" on our facebook page, or email our dedicated Pesach email address kapesach18@gmail.com . Please feel free also to whatsapp my dedicated pesach number +61411657372.

We also take this opportunity to thank both local and overseas Kashrut agencies that have shared with us information in relation to Pesach and year round matters, and in particular the OU, OK and CRC and locally our esteemed colleagues at Kosher Australia .

Most importantly we thank you our loyal kosher consumers. You are ultimately the driving force behind the formidable strength of kosher demand in our community. The more you purchase local kosher items, the more the market place knows of kosher consumers - the more products will become available and the more companies will want their products to be kosher.

All of us at the KA take this opportunity to wish all of you a

Happy and Kosher Pesach

PRODUCT
LIST**

34th Edition
**PESACH
GUIDE**
5785 • 2025

PESACH PRODUCT LIST

IMPORTANT NOTES

CHEESE

Cheese may be coagulated using both microbial rennet and cultures that are grown on chametz media. Therefore all cheese products must bear a reliable hechsher.

COFFEE

Please use only those listed as instant coffee may contain added dextrins that may be chametz. The following are all chametz free but should be purchased before Pesach.

CREAM

Pure fresh cream in bottles or cartons, may be used provided it contains no other added ingredients (such as thickeners, sweeteners, flavours, milk solids or powders). Cream should be purchased before Pesach.

Flavoured or Sweetened Cream is NOT ACCEPTABLE

Thickened Cream is NOT ACCEPTABLE

Sour Cream is NOT ACCEPTABLE (except for Tempo product in Section 1)

DETERGENT

Detergents and soaps are generally not edible and therefore not subject to the prohibition of chametz. Never-the-less it is a widespread custom that only detergents with a reliable "Kosher for Pesach" endorsement be used for dishes.

EGGS

Raw hens eggs that are still in the shell, can be used for Passover even if they are not specifically certified for Passover. This is true of both white and brown eggs, and also applies to eggs which are pasteurised in-shell. We recommend that you buy them before Pesach.

FISH

Out of concern for the possibility of cross contamination in the fish store, many have the custom to purchase only whole fish for Pesach and

to clean and fillet the fish in the Pesach kitchen using Pesach utensils. Alternatively if fish is to be cleaned and filleted in the fish shop, this should preferably be done with a Pesach knife supplied by the customer on a clean and preferably covered counter. In all circumstances the fish should be thoroughly rinsed. Minced fish should be minced at home in Pesach utensils or at a shop under rabbinic supervision.

Bulk commercial raw kosher skin on fish fillets are suitable, but should be purchased before Pesach. It is preferable that after defrosting, the fish should be rinsed in cold water.

FRUIT – FRESH & DRIED

Raw unprocessed fresh fruit is kosher for Pesach without any supervision but must be checked for infestation.

Apples, Apricots, Bananas, Coconut, Custard Apple, Dates, Figs, Grapefruit, Grapes, Honeydew Melon, Kiwifruit, Lime, Mandarin, Mango, Nashi, Orange, Passionfruit, Papaya, Paw Paw, Peach, Pear, Pineapple, Plum, Pomegranate, Raspberry, Rock Melon, Strawberry, Tomato, Watermelon.

Dried fruits, both from tree and vine may contain oils or anti-oxidants that may not be fit for Pesach use. Drying boards may be dusted with chametz starch. Therefore no dried fruits should be used without proper investigation.

FROZEN FRUIT & VEGETABLES

Frozen vegetables are blanched prior to freezing and in some facilities chametz items may be blanched on the same equipment. Furthermore, possible chametz or kitniyot chemicals such as anti-foam, anti-oxidants (eg citric acid) may be placed in the blanch water. As such only frozen vegetables that have been investigated may be used.

In contrast IQF plain frozen fruit provided there are no added sweeteners or other ingredients may be used.

GLUTEN FREE

Products must bear a KLP hechsher or specifically listed in the Pesach list. There are many products which may be 100% gluten free but are still chametz.

GRAINS & SEEDS — QUINOA

Quinoa is still subject to much Rabbinic controversy. Some Rabbis opine that as it is also made into a flour and can be used in baking the custom of kitniyot applies to it in the same way as it applies to maize. Others opine that as it was not known in the western world until recently, it could not possibly have been included in the custom. Others point to a problem of shared equipment and facilities with chametz flour. The KA therefore recommends that ONLY Quinoa with a reliable Pesach hechsher be used such as OU-P or Star-K P.

Star-K recommends the following procedures for checking Quinoa for insects:

Place Quinoa (no more than 500g at a time) in a strainer with holes small enough that it won't fall through, ideally #15 - 25 size mesh. Shake the Quinoa over a white paper or lightbox for approximately 25 - 30 seconds.

Check the surface of the paper or lightbox for insects. If any insects are found, the Quinoa should not be used. The most common insects being found are booklice and sometimes mites.

HONEY

Honey and glucose blends may contain actual chametz and are packed on the same lines as regular honey. Therefore only honey which has been investigated should be used.

JUICE — FRUIT AND VEGETABLE JUICE

ONLY juices bearing a reliable Rabbinic supervision or listed in this directory should be used.

MATZAH

With "Kosher for Pesach" Rabbinic endorsement only.

N.B. Matzah and Matzah-Meal are produced by many companies for year-round use and are not necessarily Kosher for Pesach.

All Matzah and Matzah-Meal must bear a Kosher for Pesach sign or label, otherwise they cannot be used on Pesach.

MATZAH - GLUTEN FREE

There are various Gluten Free Matzah Style crackers on the market. These are NOT matzah at all and the mitzvot of the seder night CANNOT be fulfilled using these crackers. Matzah must be made using flour of the five grains. Wheat, oats, barley, rye and spelt. These crackers use no flour of these kinds and use instead ingredients like tapioca starch or potato starch and are therefore not matzah. Their blessing is shehakol.

Special gluten free oat matzah is specially made for Pesach and is specifically labelled kosher for the seder night and the only ingredients are oat flour and water. Please be careful to ensure you fulfil the mitzvah with proper matzah.

NUTS

Only non-shelled or shelled unprocessed (i.e. unsalted, uncoated, unroasted, unground) Australian Pecans, Almonds, Cashews, Hazel Nuts, Macadamia Nuts, Pine Nuts and Walnuts may be used.

As some nuts may be coated or treated with Kitniyot or chametz coatings, consumers must ensure that shelled nuts have no coatings. If in doubt purchase only those with a reliable hechsher. The Kashrut Authority has supervised the milling of shelled nuts and these are available bearing the Authority's seal. Please check label carefully.

N.B. Peanuts are considered by some as kitniyot and therefore customarily not used on Pesach.

(In South Africa this custom in relation to peanuts is not widely practiced especially in relation to peanut oil. However the practice of Australian Jewry has been not to use peanuts on Pesach. Contact your own Rabbi.)

OIL

Pure extra virgin olive oil bearing an OU for year round use is ALSO suitable for Pesach even without a 'P'. Only cottonseed oil bearing a reliable Pesach rabbinic endorsement should be used for Pesach. This is because anti-oxidants that are used in production may be chametz.

SOFT DRINKS

Carbon dioxide can now be manufactured in Australia as a bi-product of the growing ethanol industry including ethanol produced from wheat. While there is one rabbinic authority that still permits carbon di-oxide made from chametz the vast majority do not.

As such The KA recommends that only carbonated drinks where the source of the CO2 has been verified as chametz free should be used.

SPICES

Spices may contain "aids to production" or other ingredients that are chametz; therefore only spices with a reliable Kosher for Passover Hechsher may be used.

SUGAR

During the milling and refining of sugar, various ingredients such as enzymes may be used that may be chametz. These are filtered out during the final refining of the sugar and therefore halachically all white sugar remains permissible for Passover.

VINEGAR

Vinegar may be distilled from ethanol that is chametz and may be distilled using chametz yeast. ONLY vinegar or imitation vinegar with a reliable hechsher should be used.

SECTION 1: CERTIFIED KOSHER FOR PASSOVER

These are products that have been investigated and formally supervised especially for Pesach. They represent the highest standard of Kashrut as applicable to kosher for Pesach. Other than raw foods some people purchase only these products for Pesach. Because the Code of Jewish Law encourages people to be especially strict on Pesach some people have a custom to use only kosher for pesach certified items for Pesach.

ALCOHOLIC BEVERAGES

Many alcoholic beverages acceptable through the year, even those kosher certified, are distilled from grain which is chametz and may not be used. In some, chametz yeasts may be used in the fermentation process. This includes Beer, Whisky, Bourbon, Rum, Liqueurs, Spirits, Vodka and Wine Based Drinks.

Therefore all alcoholic beverages must bear a kosher symbol specifically indicating that the product is "Kosher for Passover".

A range of Kosher for Passover alcoholic beverages are available from:

ENRICHED MATZAH

Egg matzah, matzah made using fruit juice instead of water, chocolate Matzah and other enriched matzah made using other ingredients beside Matzah flour and water in the traditional way, cannot be used to fulfil the Mitzvah of Matzah. Furthermore they are customarily not eaten during Pesach by Askenazi Jews even when bearing a reputable "Kosher for Passover" endorsement. This restriction does not apply to the elderly, sick or infants. Sephardim should consult their Rabbi.

MEAT

Meat produced in kosher butchers for year round use is not suitable for Pesach use. Buy ONLY Kosher for Pesach meats and smallgoods.

VILLAGE FINEST KOSHER BUTCHER

Order on line at www.villagefinest.com.au | Pre-packed frozen meat and small goods are available from Krinskys. Fresh pre-packed meat available

from Supamart IGA - Dover Road, Rose Bay. Woolworths: Westfield Bondi Junction, Double Bay, Eastgardens, Neutral Bay Village & St Ives Shopping Village.

Please ensure products are sealed with the diamond KA Glatt Kosher Meat 'Kosher for Pesach' seal.

M & M POULTRY

SECTION 2: KOSHER FOR PASSOVER — NOT CERTIFIED

These products should preferably be purchased before Pesach.

These are products that while not being formally certified for Pesach have been determined to be of a standard that is appropriate for the fully observant kosher consumer even in the first instance. They are products that are inherently kosher for Pesach or the possibility of contamination with *Chametz* is considered insignificant.

SUGAR

All Bundaberg organic sugar, white sugar, raw sugar, brown sugar and caster sugar and are produced **enzyme free** and are suitable for Pesach

All CSR white sugar, raw sugar, brown sugar and caster sugar are approved for Pesach and are produced enzyme free.

Warning: Pure Icing Sugar, and Icing Sugar Mixture does contain actual chametz starch and may not be used for Pesach. Brown sugar should not be used for Pesach unless investigated.

SUGAR - COCONUT

NIULIFE

P Coconut Sugar - Requires Kaust Melbourne Kashrut Logo

SUGAR SUBSTITUTES

HERMESETAS

P Mini Sweeteners - Product of Switzerland only.

SYRUPS

Agave Syrup and Maple Syrup must bear a reliable kosher for Pesach certification.

CARWARI

P Organic Agave Nectar Dark - 350g, 25kg - ONLY when bearing KA Logo
P Organic Agave Nectar Light - 350g, 25kg - ONLY when bearing KA Logo

TEA

All brands of plain pure unflavoured tea and plain unflavoured tea bags are produced chametz-free but must be purchased before Pesach.

VEGETABLES

All raw vegetables contain no chametz. However it is customary for Ashkenazim not to eat rice, maize (sweet corn) and leguminous (pulse) vegetables such as all beans and peas (including string beans) because of their similarity to the five grains (wheat, barley, oats, rye and spelt) which are actual chametz. These are called "KITNIYOT" (This custom is not widely practised amongst Sephardim - ask your rabbi for guidance. See Kitniyot section).

Fresh raw vegetables (including raw whole herbs) must be washed and thoroughly checked for insects.

Asparagus, Avocado, Baby Spinach, Beetroot, Bok Choy, Broccoli, Brussel Sprout, Cabbage, Carrots, Cauliflower, Celery, Cucumber, Dill Leaves, Eggplant, Fennel, Ginger, Leek, Lemon, Lime, Lettuce, Licorice Root, Marjoram, Mint, Mushroom, Onion, Oregano, Paprika, Parsnip, Fresh Green Peppers, Parsley, Marrows, Potato, Pumpkin, Radish, Rhubarb, Rosemary, Silverbeet, Spinach, Squash, Swede, Sweet Potato, Thyme, Tomatoes, Turnip, Yam, Zucchini.

Many companies provide cut and peeled vegetables or washed salad vegetables. These should not be used without reliable investigation as potentially chametz anti-oxidants such as citric acid are often added to the wash water. Preservatives such as sodium metabisulphate are kosher for Pesach

BILLABONG PRODUCE

ONLY when bearing P at the end of date code

P Crushed Tomatoes - 3kg can or 700g bottle

Quick, Easy & Deliciously Tasty

NEW

Pesto, Bocconcini & Tomato

INGREDIENTS

3 CORN THINS® slices
Cherry tomatoes (sliced)
3 Kosher Bocconcini balls (sliced)
2 Tbsp. Pesto

TO MAKE PESTO

3 cups basil
4 cloves of garlic
1/2 cup of olive oil
1/2 cup pine nuts
Juice of 1-2 lemon
1/2 tsp Kosher salt

DIRECTIONS

Spread pesto across CORN THINS® slices, then layer on bocconcini cheese & cherry tomatoes.

Add pepper & salt if desired.

TO MAKE PESTO

Place basil, garlic, pine nuts, lemon & salt into a blender or food processor.

While blending these ingredients slowly add oil till all is well mixed. Taste & add more salt if desired.

The delicious POPCORN taste of CORN THINS® slices makes them the perfect crispbread to be eaten anytime of the day.

CORN THINS® products can be found in the biscuit aisle of most supermarkets.
www.cornthins.com

KITNIYOT

Approved Kashrut Agencies for Kitniyot products:

	OU Kitniyot Logo
	Bedatz Bet Yosef Kosher for Pesach - Kitniyot
	Star S

Kitniyot are customarily not eaten on Pesach by Ashkenazi Jews. The origins of this custom are not 100% clear and many reasons have been given for the custom including the following:

- The seeds can be ground into flour which may create a mix up with wheat flour.
- After cooking they may appear like chametz foods.
- The seeds are similar to grain kernels and come in a sheath or pod.
- Generally speaking all legumes are also kitniyot because they grow in pods.

The reasons can lead to interesting anomalies. Dried pumpkin seeds which are seeds in a pod, are considered kitniyot. However pumpkin cooked whole including obviously with it's seeds is not problematic, and the now cooked seeds can be eaten. This is because a whole raw pumpkin cannot be confused with anything chametz. Similarly dried fennel seeds are kitniyot but the bulb, root and greens are not. In contrast green peas are considered kitniyot because they are a legume and come in a pod. Wherever in the guide we write seed next to the kitniyot item it is specifically only the seed that is kitniyot.

The following foods ARE Kitniyot:

Alfalfa
Amaranth
Aniseed
Anise Seed
Aspartame

Beans - All including Edamame
Buckwheat
Caraway Seed
Cardamon
Chick Peas
Coriander Seed
Corn, Maize
Corn Starch
Cumin
Fennel Seed
Fenugreek Seed
Flax Seed
Green Beans
Hemp Seeds
Lentils - All
Linseed
Millet
Mustard and Mustard Seeds
Pea
Peanut
Poppy Seed
Pumpkin Seed
Rapeseed
Rice - Raw or raw organic, white or brown rice varieties (no additives)
Safflower Seed
Sesame Seed
Snow Pea
Sorghum
Soy Bean
Soy Lecithin
String Bean
Sugar Snap Peas
Sunflower Seeds
Teff
Tofu

The following are NOT Kitniyot but require thorough checking for foreign seeds:

Carob
Chia Seeds
Guargum
Locust Bean Gum
Saffron

**The following are NOT Kitniyot but some customarily do not use them.
The Kashrut Authority will certify products that contain garlic.**

Cloves
Garlic

SECTION 3: CHAMETZ FREE

These products are produced chametz free but are of a standard that in the first instance should not be used. These products should preferably be purchased before Pesach.

These are products that have been investigated and found to be free of *Chametz*, but are not certified as such and are not up to a standard generally practiced by international kashrut agencies. These products are listed for use by persons who may not have access to certified kosher for Pesach products or are not yet ready to take upon themselves the stricter approach.

LAUNDRY DETERGENTS

Ordinary laundry bar soap detergent powders and liquid detergents may be used for the laundry purposes, but customarily are not used for dishes without being found to be kosher for Pesach. Many ironing-aids and sprays contain actual chametz (starch or chametz ethanol) and may not be used for Pesach.

The following have been found to be chametz free.

Crisp

Fabulon

Fabulon Lemon

Preen

Sard Wonder Spray

Sard Nappy

Sard Soaker

Sard Soap

Sard Stain Stick

Napisan

PAINT, INK, SHOE POLISH

All inedible products may be used for Pesach.

PAPER & PAPER GOODS

Paper and paper goods (plates, paper towels, paper serviettes, etc.) are all kosher for Pesach eventhough they may contain wheat starches that are chametz.

In accordance with the letter of the law authorities consider starch in the making of paper plates as non-food nullified before Pesach and allow their use. Further more Shulchan Aruch discusses the use of starches in the making of utensils and considers that after two months the starch loses its ability to be able to leech into food products. As such if the manufacture date of the paper goods is older than two months there is no Pesach problem.

However as with all things on Pesach, where we are often stricter than the letter of the law, many do not use paper plates in contact with food unless they have a kashrut endorsement. Similarly recycled paper products are subject to this stringency, as they may be made with recycled paper pulp that contains wheat starch.

Coated paper plates produced in the United States that may contain maize cornstarch, according to most authorities are not even subject to any stringency due to maize corn-starch being only of a kitniyot origin.

All Aluminium foil rolls are produced without question in a manner that allows their use on Pesach.

While Aluminium foil containers used to be coated with either non-kosher or chametz lubricants this appears to now no longer be the case and all foil containers may be used. If one wishes to be strict they should be rinsed before use. Foil containers product of the USA are according to the OU all ok.

In general plastic tablecloths, plastic bags, plastic plates, plastic bowls, plastic cups, plastic cutlery, expanded polystyrene (foam) cups and paper cups (hot or cold) are produced chametz - free. Note however that some plastic tablecloths and some plastic bags do come with a fine powder film and this is quite common; care should be taken as the powder may be chametz starch.

All bamboo pulp crockery and cutlery is suitable for Pesach use. All sugarcane pulp crockery and cutlery is suitable for Pesach use.

For those wishing to be stringent the following branded and non- branded products have been investigated and found to be chametz - free based on information supplied by the manufacturer. They have not been produced under supervision.

COSMETICS & TOILETRIES

Many cosmetics and toiletries, particularly liquids, contain ethanol and other ingredients manufactured from grain derivatives, which are chametz. In general, all talcum, baby, face and foot powders, eye shadow, hand lotions, cold cream, eye liner, mascara, blush and rouge, and similar “solid” or “lotion” or “cream” products that are not fit for human consumption are permitted to be used on Pesach, even if containing chametz. However one must be certain that they are not fit for human consumption. They do not have to be unfit for animal consumption. Products that contain visible oatmeal flakes should not be used as the oatmeal can be separated and theoretically made edible after washing.

Perfumes and liquids such as cologne and au de perfume usually contain ethanol and may indeed be edible. Therefore unless the inedibility of the final product can be determined they may not be used. Deoderants and Hairsprays, while maybe containing ethanol, are almost certainly inedible.

Special care should be taken in regards to “corn starch” powder as it may be “wheaten corn starch” which is chametz. Only maize corn starch powder is acceptable (Kitniyot).

Some people have the custom not to rely on the inedibility of a product and use only products that contain no chametz whatsoever. The following groupings list such products that according to information provided by the manufacturers are found to be chametz free (whether inedible or not).

COSMETICS

All the products of the following brands contain no chametz whatsoever unless indicated otherwise. This list comprises perfumes and colognes, make-up, make-up remover, lipstick and nail-care products.

They are permitted whether inedible or not.

GUINEA PIGS & RABBIT

Courtesy of Star-K

They should be fed pure alfalfa pellets. Make sure it is pure alfalfa since it is common to add grains. Dried alfalfa may also be given. This can be supplemented with a mixture of cut-up fruits and vegetables - carrots, broccoli, grapes, apples, melon, kale, parsley, oranges, celery, sunflower seeds and cabbage.

Guinea Pigs especially will benefit from kale, parsley and oranges

Hamsters especially will benefit from apples.

SECTION 5: MEDICINES AND BABY FOODS

These are products that are of course fit for human consumption but because they are for infants or people who are unwell attract their own legitimate leniencies.

BABY FOOD

The feeding of an infant on Pesach is a complex matter that needs careful assessment together with your baby's doctor and nutritionist, especially as wheat from which matza is made can easily become an allergen early in life. If necessary seek advice from both your doctor and Rabbi. The Rabbi will at all times take into account the halachic dictum that the health of the baby is paramount.

Parents of babies on special medically supervised diets, which contain chametz, must contact their rabbi for directions. Again the rabbi will at all times take into account the halachic dictum that the health of the baby is paramount. If a child is on a special formula, please also consult your rabbi or The KA for advice.

Almost all manufactured baby foods contain chametz in one form or another and should only be used when bearing rabbinic supervision.

In general, when necessary, the practice not to use rice or leguminous vegetables (kitniyot) is suspended. A rabbi should be consulted. If rice and the other restricted vegetables are used they should be served in separate utensils kept only for the baby. These utensils should be washed in a sink not used for Pesach utensils.

Special care should be taken with regards to "corn starch" baby powder as it may be actual "wheat starch" and actual chametz. Only maize corn starch baby powder is acceptable (Kitniyot).

Parents of infants should not panic, Jewish families have been successfully keeping Pesach without any ill effects for literally thousands of years.

The KA has investigated the following baby formulae and these may be used if required. They invariably contain kitniyot and may contain minute amounts of actual chametz which can be considered nullified for the use of children. Utensils should be kept separate from any other Pesach utensils. If anyone needs to use a particular baby formula they should contact Rabbi Gutnick on rabbig@ka.org.au

This is only for the use of infants and toddlers who cannot tolerate anything else.

BABY CARE

In general all shampoos, conditioners, soaps, powders, lotions or creams etc are acceptable due to them being inedible. Wheaten corn starch is edible and must NOT be used. It must be sold with the chametz.

Bonjella – **NOT ACCEPTABLE FOR PESACH**

Infacol Wind Drops (for Colic) are permitted for babies ONLY

*Orased Jel

*Panadol Children 1 month - 1 year colourfree baby drops

Items *asterisked contain non-kosher ingredients but NO chametz ingredient, and may be used for children.

Baby Wipes - All brands of alcohol free baby wipes may be used on Pesach.

MEDICINES

The following are guidelines for the uses of medication on Pesach for individuals who are ill:

- a. Creams, pills designed to be swallowed (not chewed or dissolved in the mouth or in water)and injections may be owned and used on Pesach even if they contain chametz, since they are a non-food and inedible.
- b. This covers most medicines used by adults. It is permissible to grind pills, even on Shabbat and Yom Tov, that are normally not designed for chewing and are therefore permissible for Pesach, and mix that powder into food items so that a child can take a required medicine on Pesach. However a doctor must be consulted to make sure that the child is getting the correct dosage and that the potency of the pill is not compromised by grinding it up.
- c. Liquid or chewable medications for children are edible and flavoured and therefore required to be Kosher for Pesach. If a pesachdik alternative can not be found one should contact their Rabbi or Rabbi Gutnick for further advice.

Rabbi Gutnick can be contacted specifically for Pesach medication questions only, on the following dedicated whatsapp number: + 61 411 657 372

Liquid medicines, chewable pills and pills coated with a flavoured glaze are edible and may contain chametz. Therefore:

- a. If possible, they should be replaced - under the direction of a doctor - with a non-chewable, uncoated pill.
- b. Alternatively they may be placed in a vege-capsule (available at

most pharmacists including Gaslight) making it a non-food which may be a better solution than substitution.

- c. If any of the above is not possible and the person is in a state of *sakanah* or *safek sakanah* (any possible danger to human life), they may own and consume the medication. The same applies if the condition is not yet a *safek sakanah* but may deteriorate. A rabbi should be consulted as to whether it is preferable to purchase the medicine before or on Pesach, and as to how to dispose of the medicine once the danger passes
- d. If a or b above are not possible and a doctor determines that there is no possibility of *sakana* if the person does not take the medicine a rabbi should be consulted. He may be able to determine that the medicine does not contain *chametz* or he may decide that the medicine may be consumed due to the nature of the patient's condition. Medicinal items which contain *kitniyot* are permitted for people who are unwell.
- e. While all the above rules apply, some authorities urge that when possible kosher for Pesach medications be used and this is the practice in many communities that publish detailed Pesach medicine lists. The KA also publishes a full medicine list, a copy of which is available by contacting the KA office and is also on our website. The KA also has access to additional information that may not be on the list. Please email Rabbi Gutnick on rabbig@ka.org.au with any specific enquiry, and we will do our best to assist.

People should exercise extreme caution and consult with their doctor and rabbi before making any decision to not take a medicine.

Part 2

A GUIDE TO KASHERING A PESACH KITCHEN

34th Edition
**PESACH
GUIDE**
5785 • 2025

In the weeks before Pesach, the house, especially the kitchen and eating areas, must be thoroughly cleaned to remove all trace of Chametz. Shulchan Aruch records and instructs that the **“people of Israel”** are particularly **“Holy”** and remove even the tiniest insignificant amounts of chametz.

Stoves, utensils, etc., used for Chametz must be kashered to be used on Pesach.

This section covers basic kitchen **“kashering”** and should be supplemented by rabbinic advice or The Kashrut Authority. All kashering, etc., must take place before the time for removal of Chametz on the day before Pesach.

THE KITCHEN

CUPBOARDS AND PANTRY

1. Lock away all Chametz utensils and food in a designated cupboard or room, sealed to prevent accidental use during Pesach.
2. Thoroughly clean and preferably line all shelves.

COUNTER-TOPS & KITCHEN TABLE

Kasher by pouring boiling water over the surface after thorough cleaning. Materials like Granite, Marble, Metal, Wood, Laminex, Formica, Caesar Stone, Quartz Resin and Corian can be kashered.

Some authorities recommend covering certain materials like Laminex, Caesar Stone, Corian and plastic surfaces.

REFRIGERATOR

1. Removable all parts and cleaned thoroughly.
2. Preferably line shelves, ensuring air can circulate.
3. Do not use ethanol based cleaners as they may be Chametz derived.

STOVES AND OVENS

GAS STOVES

1. Clean all parts thoroughly.
2. Preferably replace grates and catchment areas with new ones that are only used for Pesach.
3. If replacing is not possible, kasher grates by heating them until red hot using a blow torch or the gas stove flame.
4. Catchment areas, etc., can be kashered by heating until hot enough to scorch paper or by using the scalding process with boiling water. If using this method then the stove should not be used for 24 hours. A few nuts and bolts or rocks should be heated until red hot and placed on the stove top and boiling water poured all over the surface moving the heated bolts over the entire area.
5. Clean all parts, reassemble the stove, and turn all gas jets. Cover the flames with a metal sheet to kasher the stove.
6. Kasher solid parts of the stovetop and backplate as mentioned above or cover with a double layer of strong aluminum foil.
7. Clean and cover stove knobs.
8. Some authorities do not permit kashering of enamel parts. Therefore, enamel stovetop and enamel catchment areas should preferably be covered with two layers of foil or a Pesach Blech, after kashering. If this is not possible, the "light glowing" method will suffice.

ELECTRIC STOVES

1. Kasher tops and catchment areas like a gas stove.
2. Turn rings to full heat to make them red hot.
3. Kasher the centre knob or cover with a double layer of aluminum foil.
4. Ensure foil does not come in contact with exposed wires.

CORNINGWARE STOVE TOP

1. Turn to the highest setting for ten minutes.
2. Pour boiling water on the portions between the burners, and cover with a Pesach Blech or 2 layers of aluminum foil.

GLASS TOP STOVE TOP

Kasher by turning on full heat for a half-hour and cover with Pesach blech or aluminum foil.

INDUCTION STYLE STOVE TOPS

Pour boiling water over the entire surface and cover with silver foil. If the model allows, run the element while covered. Otherwise please contact or rabbi or Rabbi Gutnick for further instruction.

OVENS

1. Preferably clean the oven and do not use it at all during Pesach, due to cleaning difficulty.
2. If the oven must be used, thoroughly clean all removable parts, & the interior walls.
3. Turn the oven on to maximum heat for an hour with shelves inside.
4. For extra caution, kasher grates or shelves by heating them until red hot using gas flames.
5. A griller tray or any surface upon which food was placed directly, should only be kashered by the full "glowing" process.
6. Many authorities do not permit the kashering of enamel so cover enamel walls foil or an insert.

PYROLITIC OVEN

1. A Pyrolitic Oven that undergoes a cleaning cycle is considered fully kashered.
2. The racks not in the oven during the cycle must be kashered separately as in "Ovens" points 3 & 4 above.

MICROWAVE OVENS

1. Preferably do not use them.
2. If necessary, clean the oven and not use for 24 hours. Place a glass of hot water in the oven, and turn it on to steam the entire oven.
3. Wiped down with a clean cloth and cold water.
4. Cover trays with a double layer of Glad Wrap after kashering.

WARMING TRAY

Kasher metal electric warming trays or glass top warming trays by cleaning, turning on full for one hour, and covering with two layers of silver foil.

SINKS

METAL SINKS

1. Clean the whole sink and the drain area thoroughly, and do not use for warm or hot liquids for 24 hours before "kashering".
2. If the crevice where the drain sieve is attached to the sink cannot be thoroughly cleaned, the "light glowing" method should be used at the crevice. (see Gas Stoves 4a. Above).
3. Pour bleach into the sink and crevice around the drain, wait ten minutes then rinse thoroughly.
4. Heat a few nuts, bolts or small pieces of rock then place them in and on the sink and pour boiling water over the entire sink and draining area as well as on the taps. The sink and draining area should then be washed down with cold water.
5. If only liquid chametz was poured into the sink kasher using boiling water from a kettle.
6. Remove or replace the small strainer on the end of the tap for Pesach
7. Do not use Methyated spirits for kashering.
8. **Porcelain & Earthenware Sinks:** cannot be kashered. Pour boiling water over them, cover and use bowls or metal inserts for washing up.

APPLIANCES

DISHWASHERS

Do not kasher for Pesach due to cleaning difficulty. In case of need consult your rabbi or The Kashrut Authority.

MIXERS AND KITCHEN WHIZZES

1. Preferably do not use.
2. If necessary, purchase new beaters, blades, and bowls. .
3. Clean the machine body cleaned and preferably cover it.

ELECTRIC ROTISSERIES, BROILERS

Do not kasher. In case of need consult your rabbi or The Kashrut Authority.

NESPRESSO/COFFEE MACHINES

Use only kosher le Pesach Nespresso coffee blends:

Clean all surfaces and storage containers, then, descale as per the express instructions, run water through the machine twice, then leave for 24 hours.

Dip your milk warmer in boiling water or bring water to the boil in it, and over the edges.

Pour boiling water from the kettle directly over the spout. For assistance, call Nespresso technical support.

KITCHENWARE

Kitchenware not being kashered should be stored away and sold with the Chametz. (See Selling the Chametz)

DISHES

Porcelain, earthenware or china or utensils which may be ruined when immersed in boiling water; cannot be "kashered" and must be stored away during Pesach.

ENAMELWARE

Treat enamel pots and pans as Earthenware; they should not be kashered for Pesach. Enamel baking dishes should not be kashered. In case of need they may be kashered with the light glowing method. .

GLASSWARE AND CORELLE

1. Glassware used for cold/luke-warm food can be kashered by soaking in cold water for 24 hours and changing water 2 more times. for a total of 3 x 24 hours.
2. Glassware, Pyrex and Corelle used for hot Chametz or strong Chametz beverages such as whisky, cannot be kashered and must be stored away and not used.

The Sephardi community has differing customs in regards to glassware. Please contact your Rabbi for advice.

METALWARE, CUTLERY, POTS & PANS ETC.

1. Metal utensils - except those used for baking or frying - can be "kashered" by the "scalding process". after thoroughly cleaned and not used for 24 hours..
2. Boil a large pot of water; kasher a Chametz pot first if needed.

3. Immerse utensils in boiling water using a string bag. Rotate large utensil part by part until its entire surface has been immersed. Utensils should remain in water until boiling resumes, then rinse with cold water.
4. For large pots boil water in the pot, drop in a heated stone, and let boiling water run down the rim. Rinse with cold water.
5. Kasher lids by immersion in boiling water after thorough cleaning.. Unscrew handles and knobs for separate kashering or pour boiling water over joints if unscrewing is not possible.
6. Metalware with joints or engravings needs meticulous cleaning and kashering by the 'light glowing' method. Heat the crevice until the other side of the metal becomes hot enough to scorch paper.
7. Clean pots with tightly curled rim and then the "light glowing" method employed on the rim. This can be done by slowly rotating the rim of the pot over the fire. Kasher hinged pot cover using the light glowing method.
8. Re-kasher the pot used for kashering.
9. The light glowing method can be an alternative to the scalding method.
10. **Baking tins, frypans, rotisseries and spits**, used with no liquid or very little liquid must be caused to glow red hot. Preferable purchase new one for Pesach. Frypans used for deepfrying only may be kashered with either the "scalding" or "light glowing" method.
11. **Non-stick frypans** with plastic teflon coating cannot be kashered. A non-stick frypan with a ceramic or stone based coating can be kashered by causing to glow red.

PLASTIC

1. Preferable buy new plastic utensils for Pesach. However, plastic utensils not been used in direct cooking on the stove may be kashered as follows:
2. For utensil used with very hot liquids/foods, thoroughly clean and kasher by the "scalding process". If this may damage the plastic, it is sufficient to pour the boiling water directly from the pot or kettle, over the utensils.
3. Utensils used only for cold storage should be kashered by soaking as outlined under Glassware.
4. Utensils used for hot and cold storage must use both methods (2 and 3).
5. Plastic utensils with scratches and cracks cannot be "kashered".

WOOD

Wooden utensils can be “kashered” by the “scalding process” outlined for Metalware, but they must be thoroughly clean, and if necessary, sanded.

GARBAGE BINS

Clean before Chametz removal. If garbage is not collected, leave the bin outside, deem contents ownerless and include it in the “Kol Chamira” before the hour of the removal of Chametz. Empty your vacuum cleaner bag!

TEA TOWELS, OVENMITTS AND POTHOLDERS

After thorough laundering, and if not embroidered, these are permitted for use for Pesach. However, it is preferable to obtain a new set.

TABLECLOTHS

Non embroidered tablecloths, used for Chametz can be laundered and used for Pesach. Embroidered tablecloths cannot be kashered for Pesach. Preferably buy new tablecloths for Pesach .N.B. Starch is usually Chametz.

STONEWARE

Utensils made of actual whole stone can be kashered like metalware however, stoneware (which is made from ground stone) cannot be kashered.

SIEVE

A sieve or strainer may not be kashered for Pesach.

TEVILAT KEILIM

New or kashered utensils purchased from a gentile require toivelling in a Mikvah or body of water. Kosher utensils that remain the property of a gentile do not need tevilla. Tevilla is required when the utensils pass from the gentile to Jewish ownership. Only metal and glass (which includes corelle and corningware) require tevila min hadin. China, wood and plastic do not require tevila, but many toivel china without a bracha. Some toivel plastic as well.

While min hatorah (biblically) only metal requires tevila, chazal required glass to be toiveled because, glass can be melted and repaired as metal.

In contrast, plastic melts and burns, and therefore it does not require tevila. While in previous ages china may have actually been made with a glass coating, modern -

day china contains no glass coating whatsoever. It cannot be melted and cannot be repaired with heat. The shine cannot be construed to be a layer of glass, therefore, *ma'ikar hadin* it does not require *tevila*. The above is a very important principle to be aware of. Firstly, it makes the process of *kashering* a kitchen easier. Secondly, you can sometimes be confronted by a situation where someone has a kosher home but you know that the owner has not *toiveled* their dishes. While failure to *toivel* does not render the food non-kosher, it is questionable whether one can drink water from a glass in such a home. But a hot cup of tea in a china cup would pose no problem whatsoever!

Of course, electric *keilim* pose a unique set of problems, as electricity and water do not go together. The most lenient view is that of the Chelkas Yaakov. He is of the opinion ¹ that since electrical appliances are plugged into the wall, they are not *mekabel tum'ah* and therefore do not need to be *toiveled*. However, even he argues ² that this would only apply to a George Foreman or toaster, because they have no other use other than when they are plugged in, in contrast to a kettle or urn that can be used independently to store water so the heter does not apply.

Many *poskim* disagree with this "plug-in" heter. Instead they suggest that if a *keili* cannot be *toivelled*, it should be given as an absolute gift to a non Jew and then borrowed back for use by the Jew. This circumvents the *tevila* requirement, because *keilim* owned by a non Jew do not require *tevila*. While this may appear to be a case of legal fiction, however when combined with the view of the Chelkas Yaakov, there is a sound heter to avoid *tevila*. However as stated, the Chelkas Yaakov does not apply his heter to urns and similar utensils.

It is, however, possible to *toivel* many electrical appliances in the following manner. The key is to ensure that the item is completely dry before attempting to use it. Once the item has been *toiveled* (and all it needs is a single dip), the water should be shaken off of it and it should be left to completely dry.

A George Foreman can be *toiveled* in the mikvah and then allowed to dry for several days in a warm, dry area. If one is in more of a hurry to use the appliance, a hair dryer can be used to dry it faster. If, after drying, the appliance blows a fuse when it is plugged in, it is a sign that it must be left to dry for longer. Similarly, devices that do not have the "plug-in" heter, such as kettle, urn or electric frying pan, can be *toiveled* in the same way. The longer the *keili* is left to dry, the better the chance of avoiding damage, as long as the water is shaken off immediately after the *tevilla*.

A toaster has a more delicate electrical structure and the water will likely cause permanent damage. Similarly, if the part requiring *tevila* has an LED or LCD screen, it will likely be ruined by the water. In such cases, the "plug-in" heter together with giving the item as a gift to a non Jew is the best way to allow use of the vessel. For reasons too detailed to go into here some authorities opine that a vessel that will definitely be ruined by *tevilla*, does not require *tevilla* at all. Similarly some opine that a toaster does not need *tevila* at all as it is purely used to toast and is not used as a serving utensil at the table.

Another method is to dismantle and rebuild the utensil, removing the *tevila* requirement as the *keili* is now built by a Jew. This method is complex and should be discussed with a rabbi.

Bases of appliances that do not come in contact with food - for example, the base of a blender or mixmaster - do not require *tevila*.

THE MITZVAH OF DISPOSING OF CHAMETZ

34th Edition
**PESACH
GUIDE**
5785 • 2025

THE MITZVAH OF DISPOSING OF CHAMETZ

Besides the prohibition of eating Chametz on Pesach, there is a Biblical obligation to remove all Chametz from one's possession.

PRE-CLEANING THE HOME FOR PESACH

Before Pesach, thoroughly clean the home remove Chametz. Here is a checklist of places to look for Chametz.

- Arts and crafts supplies (sometimes made with chametz, e.g. noodles, barley, play-doh)
- Attic
- Baking supplies (baking pans, etc.)
- Bar
- Basement
- Bathrooms
- Bedrooms
- Behind furniture (See 1)
- Benchers (Grace After Meals booklets) (See 2)
- Bicycle baskets
- Bird cage
- Bird food
- Biscuit tin
- Books (See 2)
- Bread box
- Briefcase
- Broom (shake out)
- Cabinets
- Cake tin
- Candle sticks and tray
- Car (between and under seats, boot, glove compartment, ash trays, baby seat, under car mats, in station wagon)
- Carpet (underneath if not wall-to-wall or if torn)
- Carpet sweeper
- Clothing (pockets, cuffs)
- Crawl space
- Cook books
- Cosmetic bag, drawer, shelf
- Cot
- Cuffs
- Cupboards
- Desk drawers
- Detergent shelves (where detergents are kept)
- Dining room
- Dining room buffet
- Dining room table, chairs
- Dishwasher
- Drawers
- Electric broom (check bag)
- Factory
- Fish tank
- Freezer
- Garbage
- Garbage cans (outside)
- Hallway

- Handbags
- High chair
- Jewellery box
- Kitchen
- Kitchen table, chairs
- Locker
- Lunch box
- Mailboxes
- Medicine chest
- Milkbox
- Office
- Oven
- Pantry
- Perfumes
- Pet food
- Pet house
- Playpen
- Play room
- Pockets
- Porch
- Pram
- Purse
- Radiator (behind and under)
- Refrigerator (See 1)
- Safe
- School bags, books, locker & desk
- Sefarim (books) (see 2)
- Shelves
- Shopping cart
- Sink (behind and under)
- Stairs (between and under)
- Storage bin, room
- Storage shed
- Store
- Stove
- Stroller
- Study
- Suitcases
- Tallit bag
- Travel bags
- Toy cars, wagons and riding toys
- Toy furniture
- Toys, toy chests
- Truck, see: Car
- Wallet
- Window sills
- Work bench
- Work shop
- Vacuum cleaner bag (empty out)
- Zemirots booklets

- 1.** Furniture or appliances, covering Chametz (eg. refrigerator, stove) and can be moved - should be moved. If you can't move it during the Bedikah (search for leaven) rely on the cleaning done before. Nullification, is required.
- 2.** Some authorities hold that Sefarim and books require Bedikah (searching) or locking away. Others say Bedikah is not required, one should not bring to the table on Pesach a volume, which may have been used around Chametz. Benchers and Zemirots booklets should not be used during Pesach. They should be put away with the Chametz which is sold to a non-Jew.

SELLING THE CHAMETZ

Chametz must not remain in one's possession over Pesach. If you have stocks of Chametz, which cannot be removed or destroyed arrange for it to be sold to a non-Jew.

The sale is carried out legally by a rabbi and should be done before the Eve of Pesach. Chametz must be stored away, locked and inaccessible during Pesach. Inform the rabbi of where the Chametz lies. Business premises must also be cleaned or sold.

A Sale of Chametz form is attached to this booklet or may be obtained from The Kashrut Authority or downloaded from our website.

SEARCH FOR AND REMOVAL OF CHAMETZ (BEDIKAT & BITUL CHAMETZ)

The final search for the Chametz by candlelight takes place this year on Thursday evening, immediately after nightfall. The search must be conducted in all seriousness and the house given this one final check for Chametz, even though a thorough cleaning has been carried out beforehand.

It is customary to place ten small pieces of Chametz around the house. (Care should be taken that they should not crumble). Some have a custom to wrap them in paper. A candle is taken and the special blessing recited. (Details can be found at the beginning of a Haggadah). The search then begins; during the search the ten pieces of Chametz are customarily swept into a paper bag by means of a feather. Only Chametz to be used the next morning can be left and put aside in a secluded and guarded spot. After the search a statement is recited that nullifies and makes ownerless all undiscovered Chametz. This is an important statement and negates any possibility of inadvertently possessing Chametz over Pesach. It should be read in any language that one understands.

It reads as follows:

“All manner of leaven (Chametz) that is in my possession that I have not seen or have not removed, or have no knowledge of, should be null and disowned as the dust of the earth.”

Chametz may not be eaten after Shabbat mid-morning on the day before Pesach. Then all leftover Chametz should either be disposed of. ***See “Erev Pesach That Falls on Shabbat” Booklet.*** After disposing of the Chametz the following statement is recited with all sincerity.

“All manner of leaven (Chametz) that is in my possession that I have seen or have not seen, that I have removed or have not removed, shall be null and disowned as the dust of the earth.”

REMEMBER:

Always burn the Chametz in a safe manner. Keep children a safe distance from the fire and never throw flammable liquids directly onto a fire. The fire should remain under adult supervision until it is completely burned out. Any burn should be immediately treated by being placed under cold water for twenty (yes twenty) minutes. Seek medical advice

Part 4

THE MITZVAH OF THE SEDER NIGHT

34th Edition
**PESACH
GUIDE**
5785 • 2025

THE MITZVOT OF SEDER NIGHTS

The Seder nights hold a unique place in our religion and for our People. They are celebrated in one way or another. Performing the key Mitzvot in the properly prescribed manner makes the evening that so much more special.

The following are the key mitzvot of the night:

THE RECITAL OF THE STORY OF THE EXODUS

The Seder is not merely a social gathering. It must allow the opportunity for all to fulfil the command to recite the story of the Exodus of our people from Egypt. Therefore the Haggadah should be read and its contents understood. At the very minimum, the four questions should be asked followed by the answer - that we were slaves in Egypt and the Almighty freed us from our bondage. In addition the three paragraphs describing the meaning of Pesach, Matzah and Marror should be read in the language understood by all present. Everyone should also try and fulfil the Rabbinic ordinance of saying verses of praise (the "Hallel") which is also found in the Haggadah.

THE MATZAH

Minimum Requirements: The Torah commands us to eat Matzah on Pesach night. One eat a piece "the size of an olive, about 19 grams of matzah, within four minutes and while reclining to the left. This minimum requirement is approximately 1/3 of a hand made shmurah matzah of 2/3 of a machine matzah.

SHMURAH MATZAH

Machine-made Matzot, are usually supervised from the time of the milling of the flour. Shmurah Matzah is supervised from the time of harvesting the grain. It is best to use "Shmurah Matzah" at the Seder, at least when eating the minimum amount.

MARROR - THE BITTER HERBS

Minimum Requirements: The eating of the Marror together with the Pascal lamb on Pesach night was a Biblical command. Today, it is an ordinance of the sages. The minimum amount of Marror is approximately 19 cubic cm. If using lettuce leaves, this is the amount of leaves which would cover an area of approximately 20 cm x 25cm. This amount should be eaten within 4 minutes (but if necessary, up to 7 minutes)..

What can be used as Marror (Bitter Herbs)?

The Mishna Pesachim (39a) lists five types of plants which are considered

as the "bitter herbs" to be used at the Seder. The commentaries can properly identify only three of these species today:

1. Romaine Lettuce stalks or leaves (Cos variety) - (this should be carefully checked for insects.)
2. Pure horseradish stalks or leaves
3. Endives (escarole)

If unavailable, use ordinary lettuce (crisp head or iceberg variety). Romaine lettuce is preferred, even if not bitter. The usual custom is to eat a mixture of lettuce and horseradish. The bitter herb must be pure and not mixed or preserved with anything. Commercially produced horseradish relish is not acceptable.

If none of the above mentioned herbs is available, then any bitter vegetable may be used in order to obtain a bitter taste, but as one does not really fulfil one's real obligation in this manner the blessing for Marror may not be recited.

THE FOUR CUPS OF WINE

Minimum Requirements

Our sages decreed that at four different stages of the Seder it is necessary to drink a cup of wine. The obligation is to "drink" the wine, not merely to sip or taste it. "Drinking" is defined as at least a half a cup of wine each time - the cup having a volume of at least 87mls. The wine should be drunk each time without interruption while leaning to the left "in the manner of free men" (though, if necessary, one may take up to 4 minutes to complete each cup).

What can be used as "wine" for the four cups?

All wines, grape juice and other beverages mentioned below must, of course, bear a reliable rabbinic endorsement that they are Kosher for Pesach (not just kosher).

1. Red wine (preferable naturally sweet or dry)
2. Wine diluted with grape juice.
3. Pure grape juice.
4. Grape wine diluted with up to 50% water.
5. Grape juice diluted with up to 50% water.
6. Raisin wine or other Kosher for Pesach alcoholic beverages.

WHAT TO DO ON THE SEDER NIGHTS

The following chart outlines the normal requirements if the Haggadah is followed faithfully.

All amounts and volumes mentioned are the absolute minimum amounts and are based upon “Shiurei Torah” by Rabbi A. Ch. Noeh.

WHAT ?	WHEN ?	HOW MUCH ?
Four cups of wine	<ol style="list-style-type: none"> 1. For Kiddush 2. After Ga'al Yisrael 3. After BirkatHamazon 4. Before Nirtzah 	<p>The Seder cup should hold at least a Reviyit i.e. 87 mls of wine. It is preferable to drink the whole cupful, without interruption, all four times. However if this is too hard, one need only drink the majority of the first three cups, and a complete cupful only the fourth time. If one cannot drink wine one may use grape juice.</p>
Matzah	<ol style="list-style-type: none"> 1. After reciting Hamotzi and Al Achilat Matzah 	<p>Preferably two Rabbinic k'zeitim, i.e. a total of 26gm are needed, one from the upper matzah and one from the middle of the three matzot, i.e. almost approx 13gm from each of the top two matzot. (However, if absolutely necessary, one may fulfil one's obligation by eating just over 19gm (1 Biblical K'zayit matzah.)</p>

WHAT ?	WHEN ?	HOW MUCH ?
Matzah	2. For the Afikoman	It is preferable to eat 26gm. If the Afikoman is not large enough, one may combine it with other matzah to make up the required measure. If it is too difficult to eat the entire 26gm one may eat just 13gm.
	3. For Korech	At least 13gm of the Hillel's Sandwich) bottom of the three matzot should be used.
Maror If you use only pure grated horseradish	After reciting Al Achilat Marror and for Korech	Preferably one "Biblical K'zayit" i.e. 29cm ² (approx. pure grated 30gms). If this is too difficult, one may eat 9cm ² of the horseradish
DO NOT USE COMMERCIALY PRODUCED JARS OF CHREIN FOR THE MITZVAH OF MAROR.		
Maror If you use only Romain Lettuce	After reciting Al Achilat Marror and for Korech	One "K'zayit" i.e. enough Romain lettuce to cover completely at least an area measuring 26 x 14cm.
<i>It is customary to use a proportionate mixture of both horseradish and Romain lettuce.</i>		

SHIUREI TORAH

The mitzvot of the Seder require that Matzah and Maror be “eaten” in appropriate quantities and not just nibbled. The minimum requirement for eating a food, as taught by the Rabbis of the Talmud, is a “Czayit” (=size of an olive). This must be eaten preferably within 4 minutes but if necessary in up to 7 minutes. A “Czayit” is approximately the size of 1 fluid oz or 29 cubic centimeters of water. The weight of 29cm³ of water is 29grams. Therefore most of the guides (including earlier editions of the Kashrut Authority Pesach Handbook) state that a “Czayit” of matzah is 1oz or 29grams of matzah. However according to most opinions this is incorrect.

In general all Torah measurements are established by volume rather than by weight. Therefore one “Czayit” of matzah is equivalent to the amount of matzah that takes up the ‘volume’ of 29 grams of water or 29ml. In reality the ratio of volume to weight of matzah compared to water is no more than 2/3. This means that the Shiur of a “Czayit” for the fulfillment of biblical mitzvot is approximately 19 grams of matzah, (not 29 grams) which is approximately 1/3 of a hand made shmurah matzah or 2/3 of a machine matzah. This amount is considerably less than the usually recommended amounts.

Furthermore, the requirement for a “Czayit” for a Rabbinic Mitzvah is only 2/3 the above measure. Therefore a “Rabbinic Czayit” is only 13 grams of matzah.

Therefore for Korach (the sandwich) all that is required is one rabbinic “Czayit” a quarter of a Shmurah Matzah or half a machine matzah. When eating the customary two “Czaytim” for Afikoman all that is required to be eaten is 26 grams of matzah (2 rabbinic “Czaytim”) i.e; 1/2 a shmurah matzah or 1 machine matzah. Similar measurements apply to maror.

The above information allows us to ascertain the appropriate requirements of matzah and maror with realistic amounts, able to be consumed relatively easily by all the seder participants.

Part 5

WHEN EREV PESACH FALLS ON SHABBAT

34th Edition
**PESACH
GUIDE**
5785 • 2025

WHEN EREV PESACH FALLS ON SHABBAT

This year 5785 - 2025 the day before Pesach (Erev Pesach) falls on Shabbat April 12. This is a relatively rare event that has its own set of regulations. The following is a guide compiled by Rav Moshe Gutnick as to how one should perform the mitzvot of Erev Pesach this year. If one is eating at the Pesach table one's Shabbat meal one should not bring your chametz benches or zmirot to the table. The times in this article are for Sydney. Please see the table of times with the times for other cities in Australia and NZ.

FAST OF THE FIRST BORN - THURSDAY 10 APRIL

Normally on Erev Pesach first born males are obligated to fast. This year the fast is brought forward to Thursday. Those bechorim (first born) who do not wish to fast should attend a siyum (completion of a tractate of Talmud).

BEDIKAT CHAMETZ

Since the search for Chametz with a candle can not take place on Friday night the search for the Chametz is brought forward to Thursday night. The house should be thoroughly cleaned as explained in "The Mitzvah of Disposing of Chametz", section III.

On Thursday night after it gets dark one should immediately perform Bedikat chametz as one would do on any normal year. The bracha (blessing) and Kol Chamira should be said as usual.

BEDIKAT CHAMETZ (NIGHT)

ברוך אתה ה' אלקינו מלך העולם, אשר קדשנו במצותיו, וצונו על בעור חמץ.

Blessed are You, Hashem, our G-d, King of the Universe, Who has sanctified us with His commandments and has commanded us concerning the removal of the chametz.

כל חמירא וחמיעא דאכא ברשותי, דלא חמיה ודלא בערפה ודלא ידענא לה, לבטל ולחוי הפקר כעפרא דארעא.

Any chametz or leaven that is in my possession which I have not seen, have not removed and do not know about, should be annulled and become ownerless, like dust of the earth.

BIYUR CHAMETZ (DAY)

כל חמירא וחמיעא דאכא ברשותי, ודחמיה ודלא חמיה, ודחמיה ודלא חמיה, דבערפה ודלא בערפה, לבטל ולחוי הפקר כעפרא דארעא.

Any chametz or leaven that is in my possession, whether I have recognized it or not, whether I have seen it or not, whether I have removed it or not, should be annulled and become ownerless, like dust of the earth.

FRIDAY 11 APRIL

Chametz which is necessary for Friday day and night and Shabbat morning meals should be placed in a disposable container, or in an area away from all Pesach food and children.

Although chametz may be purchased and eaten all day Friday, the custom is to sell and burn the chametz before 10.59am. Burning it later could lead to confusion in subsequent years. Kol Chamira is not recited at the time of burning. All vessels should in the first instance be kashered by this time. If necessary one could kasher vessels until candle lighting on Friday. Chametz may be carefully eaten all day Friday, and all residual chametz flushed or put aside to be sold. The sale effected by the KA will take place Friday morning but will only come into effect at candlelighting time. The sale will not include the challah going to be used on Shabbat.

SHABBAT MEALS: FRIDAY EVENING AND SHABBAT DAY

FRIDAY NIGHT

There is an obligation to eat three meals on Shabbat. In order to distinguish between the ordinary eating of matzah and the mitzvah of eating matzah on seder night, matzah may not be eaten in close proximity to Pesach. It is therefore necessary to use bread (challah) for the Friday night and Shabbat morning meals in order to fulfill the obligation of eating the Shabbat meals in the proper manner.

Because the house is already clean and ready for Pesach, this bread (or rolls) must be handled and eaten carefully. It is important that the challah to be eaten is kept in a secure place away from children and pets.

The most practical method of arranging the Shabbat meals is to prepare all food in the Pesach kitchen using only Pesach utensils and Pesach ingredients. Kiddush should be made at the Pesach table. A special table or chair should be prepared covered with a disposable napkin or the like, upon which the Shabbat challah is placed. The challah should be in sight of the place where Kiddush is being made, or at least in the same house. This is in order to fulfill the requirement that Kiddush be made where one eats the Shabbat meal.

Care should be taken that any crumbs be confined to the one spot. This may be facilitated by eating rolls or challah over a bag. Bread or challah the size of an egg should be eaten to fulfill the requirement of eating bread at the Shabbat meal.

Great care should be taken when giving challah to the children that they not carry it through the house but eat it on the spot without making crumbs. It may be wise to give them egg matzah but more on that later.

After eating, any crumbs should be carefully disposed of by flushing them away in the bathroom. Care should be taken that all crumbs be removed from clothing. It is not sufficient to place actual chametz waste in the garbage, for so long as this garbage is on one's property one transgresses the prohibition of possessing chametz and nullification does not help. If the garbage is placed on the street outside your home this will suffice.

According to the letter of the law, crumbs that fall where they will be trampled on, do not constitute a problem. Nevertheless one should be scrupulous, and clean even those crumbs and flush them in the bathroom. The bread knife, tablecloth or bag should be scraped clean (and the waste flushed away in the bathroom). They should then be placed with the locked away non-Pesach utensils. One should rinse one's mouth and then return to the Pesach table to complete the Shabbat meal.

If one wishes to avoid any challah (chametz) in the house at all, especially with children, the following may also be done: One can make Hamotzi on egg matzah as "the bread" of the meal provided that one eats as much matzah as one would eat bread at the meal. (There are those who rule that Hamotzi cannot be made on egg matzah unless 3 whole egg matzahs will be eaten during the course of the meal. Those who follow the Siddur Harav should be strict like this view). In any event children are not obligated to eat a specified amount and they may be given egg matzah to avoid the spreading of chametz.

SHABBAT MORNING

Services in Shules on Shabbat morning will be timed to enable the completion of bread eating at the Shabbat meal before the time of the prohibition of eating chametz. This year that time is at 10.02am. The challah eating at the morning meal must be finished before this time. The method of eating this meal when bread must once again be used is the same as the method outlined above for the Friday night meal. Equally egg matzah in the right amounts may be used.

Not to eat kosher for pesach egg matzah on Pesach is a stringency applicable only to Ashkenazi Jewry. According to Ashkenazi practice Egg Matzah may not be eaten after 10.02am. Sephardi Jewry follows the rulings of Maran Rav Yoseph Karo and egg Matzah is permitted all of Pesach. Please consult your Rav in case your community has a specific custom.

NULLIFICATION OF THE CHAMETZ

Before 10.59am, on Shabbat morning all chametz waste and left-overs should have been disposed of and any utensils put away with the other non-pesach utensils in the manner described above.

Before 10.59am, a statement nullifying the chametz - the "Kol Chamira" - must be recited with all sincerity. This statement reads: "All manner of leaven that is in my possession that I have seen or have not seen or have removed or have not removed should be null and disowned as the dust of the earth".

THE THIRD MEAL

The obligation of Seudah Shlishit (the third meal) should be fulfilled after midday by eating foods other than matzah that are Kosher for Passover. This is according to the normative halachic view that one may fulfil Seudat shlishit by eating other foods without washing for Hamotzi and the time for Seudat shlishit is only after noon. Those who are not careful about Gebrochts should eat Seudat Shlishit by making the b'rachah of Mezonot on cooked matzah foods such as matzah balls - cooked matzah items are not subject to the Erev Pesach prohibition of eating matzah.

Sephardim may wash for the third meal using egg matzah as above. In any event anyone using Pesach food made of the five grains for Seudat Shlishit must complete that “meal” by the end of the ninth hour. This year that time is 4.00pm. The reason for this, is that in preparation for eating the Matzah seder night, one is not permitted to eat such foods after the ninth hour.

There is a view that Seudat Shlishit may be eaten in the morning. Therefore, some have the custom to eat two meals in the morning before the time of prohibition, taking a break between the meals by learning something or taking a walk and finishing by this year 11.01am. However there are Halachic difficulties with this approach and it may not be practical in terms of the time constraints required, so our recommendation is to eat only one meal in the morning and fulfill Seudat Shlishit on other foods after noon.

PREPARATIONS FOR SEDER NIGHT

In honour of the Shabbat, when taking a nap this Shabbat, it is preferable not to verbalise “I am going to sleep now to be fresh for the seder”

No preparations may be made on Shabbat for the Seder, including setting the table, until Shabbat is over at 6.13pm. Candle - lighting should not take place until that time. Roasting of the shank bone, preparation of salt water, checking the leaves of Romaine lettuce, grinding the charoset and grinding of horseradish for maror should all be done on Friday.

If one fails to make these preparations before Shabbat the following applies. After Shabbat, roasting of the Shank Bone may take place as long as some of its meat is eaten on the first day Yom Tov. Grinding of the Charoset and Maror may be done but with a small “shinui” – deviation, ie turning the grater upside down, or grating onto a napkin rather than a regular plate. Also only enough may be grated for one day’s use as one may not prepare from one day Yom Tov to the next. The salt water may be made on Yom Tov and the Romaine lettuce leaves may be checked for insects. Note the leaves may not be soaked for 24 hours over Shabbat as this invalidates them for use as maror. The Vilna Gaon would specifically grate his maror after Shabbat in order that they be perfectly fresh.

If there are any questions regarding the above procedures do not hesitate to contact your local Rabbi or Rabbi Gutnick before Pesach.

DELEGATION FOR POWER FOR SALE OF CHAMETZ

Fax to 02 9365 0933 or email to info@ka.org.au

I, the undersigned fully empower and permit Rabbi Moshe D. Gutnick to act in my place and stead, and on my behalf to sell all Chametz possessed by me, knowingly or unknowingly, as defined by the Torah and Rabbinic law (eg Chametz, possible Chametz and all kinds of Chametz mixtures). Also Chametz utensils and Chametz that tends to harden and adhere to inside surfaces of pans, pots or cooking and useable utensils, and all kinds of live animals and pets that have been eating Chametz or mixtures thereof - all for Pesach 5785. He is empowered to sell all the above mentioned Chametz and lease all places wherein the Chametz owned by me might be found, particularly in the premises located at:

.....

and elsewhere. Rabbi Moshe D. Gutnick has full right to appoint any agent or substitute in his stead and said substitute shall have full right to sell and lease as provided herein. He also has the full power and right to act as he deems fit and proper in accordance with all the details of the Bill of Sale used in the transaction to sell all my Chametz, Chametz mixtures etc., as provided therein. This power of attorney to sell all the Chametz shall be deemed to be in conformity with all Torah, Rabbinic and civil laws.
