Dear Kosher Consumer

Welcome to the Kashrut Authority guide to Pesach 5784/2024. The purpose of this guide is to provide you with everything you need to know to enable you to enjoy and observe Pesach in full.

For the seven days of Pesach (eight days in the diaspora), the Torah forbids Jewish people to consume or even possess *Chametz*. *Chametz* that one is not permitted to eat is any food that is made up of or contains any of the five grains - wheat, barley, spelt, oats and rye - that has been mixed with water and has been allowed to stand longer than 18 minutes. Foods included in this prohibition range from bread to any beverage distilled from these grains and includes mixtures that have the smallest amount of *Chametz* including media used in the laboratory in growing cultures and even pet food.

The first part of our directory deals with food items and other products which do not contain *Chametz* and may be used on Pesach.

The second part is a guide to preparing the kitchen for Pesach.

The third part outlines the mitzvah of disposing of *Chametz* from one's home.

The final part explains how the mitzvot of the Seder should be performed.

For the purpose of clarity, our Kosher for Pesach products directory is divided into five specific sections this year.

SECTION 1: CERTIFIED KOSHER FOR PESACH

These are products that have been investigated and formally supervised especially for Pesach. They represent the highest standard of Kashrut as applicable to kosher for Pesach. Other than raw foods some people purchase only these products for Pesach. Because the Code of Jewish Law encourages people to be especially strict on Pesach some people have a custom to use only kosher for pesach certified items for Pesach

Only items with a "Kosher for Pesach" sign which also bears the name or symbol of the supervising authority printed on the package or container should be used as proof of acceptability for Pesach. It is the customer's responsibility to ensure that all articles purchased are indeed properly endorsed by a reliable authority and are Kosher for Pesach. One should not rely on the shopkeepers, however well-intentioned they may be. Similarly Pesach sections in Supermarkets such as Coles, Woolworths, Harris Farm or IGA etc may have *Chametz* items inadvertently placed in them. "Buyers should always Beware"

SECTION 2: **KOSHER FOR PESACH – NOT CERTIFIED**

These are products that while not being formally certified for Pesach have been determined to be of a standard that is appropriate for the fully observant kosher consumer even in the first instance. They are products that are inherently kosher for Pesach or the possibility of contamination with *Chametz* is considered insignificant.

SECTION 3: **CHAMETZ FREE**

These are products that have been investigated and found to be free of *Chametz*, but are not certified as such and are not up to a standard generally practiced by international kashrut agencies. These products are listed for use by persons who may not have access to certified kosher for Pesach products or are not yet ready to take upon themselves the stricter approach.

SECTION 4: **DETERGENTS AND OTHER INEDIBLES**

These are products that are either inedible or not for human consumption such as detergents or plastic plates. These are products that because of their very nature do not necessarily pose a kosher for pesach problem and do not need formal kosher certification.

SECTION 5: **MEDICINES AND BABY FOODS**

These are products that are of course fit for human consumption but because they are for infants or people who are unwell attract their own legitimate leniencies.

Each of these sections will be clearly delineated in this year's directory.

Ashkenazim do not eat Kitniyot during Pesach due to its similarity to *Chametz*. This includes rice, corn, legumes - beans, peas and (according to our custom) peanuts. Ashkenazim must therefore carefully read all food labels even with supervised products to ensure that the product does not contain Kitniyot and are not kosher certified just for sephardim. This is a common practice for products imported from Israel

The Kashrut Authority has dedicated several pages of Kitniyot products for the benefit of the Sephardi community . We have worked together with the "Badatz Bet Yosef" in Israel and there are kitniyot products

manufactured in Australia under our supervision that are now sold in Israel for Sephardim with the stamp of the badatz bet Yosef.

This booklet is the hard work of all of us at the KA. We are confident as to the accuracy of the information contained therein, however please check our website as we get closer to Pesach in case there are changes or alerts that are as a result of information that has come to hand after publication.

If there are any items not covered in our booklet, or if there are specific questions you need answered please do not hesitate to “join the conversation” on our facebook page, or email our dedicated Pesach email address kapesach18@gmail.com . Please feel free also to whatsapp my dedicated pesach number +61411657372.

We also take this opportunity to thank both local and overseas Kashrut agencies that have shared with us information in relation to Pesach and year round matters, and in particular the OU, OK and CRC and locally our esteemed colleagues at Kosher Australia .

Most importantly we thank you our loyal kosher consumers. You are ultimately the driving force behind the formidable strength of kosher demand in our community. The more you purchase local kosher items, the more the market place knows of kosher consumers - the more products will become available and the more companies will want their products to be kosher.

All of us at the KA take this opportunity to wish all of you a

Happy and Kosher Pesach

GUIDE**

5784 • 2024

PESACH PRODUCT LIST

IMPORTANT NOTES

CHEESE

Cheese may be coagulated using both microbial rennet and cultures that are grown on chametz media. Therefore all cheese products must bear a reliable hechsher.

COFFEE

Please use only those listed as instant coffee may contain added dextrans that may be chametz. The following are all chametz free but should be purchased before Pesach.

CREAM

Pure fresh cream in bottles or cartons, may be used provided it contains no other added ingredients (such as thickeners, sweeteners, flavours, milk solids or powders). Cream should be purchased before Pesach.

Flavoured or Sweetened Cream is NOT ACCEPTABLE

Thickened Cream is NOT ACCEPTABLE

Sour Cream is NOT ACCEPTABLE (except for Tempo product in Section 1)

DETERGENT

Detergents and soaps are generally not edible and therefore not subject to the prohibition of chametz. Never-the-less it is a widespread custom that only detergents with a reliable "Kosher for Pesach" endorsement be used for dishes.

EGGS

Raw hens eggs that are still in the shell, can be used for Passover even if they are not specifically certified for Passover. This is true of both white and brown eggs, and also applies to eggs which are pasteurised in-shell. We recommend that you buy them before Pesach.

FISH

Out of concern for the possibility of cross contamination in the fish store, many have the custom to purchase only whole fish for Pesach and

to clean and fillet the fish in the Pesach kitchen using Pesach utensils. Alternatively if fish is to be cleaned and filleted in the fish shop, this should preferably be done with a Pesach knife supplied by the customer on a clean and preferably covered counter. In all circumstances the fish should be thoroughly rinsed. Minced fish should be minced at home in Pesach utensils or at a shop under rabbinic supervision.

Bulk commercial raw kosher skin on fish fillets are suitable, but should be purchased before Pesach. It is preferable that after defrosting, the fish should be rinsed in cold water.

FRUIT – FRESH & DRIED

Raw unprocessed fresh fruit is kosher for Pesach without any supervision but must be checked for infestation.

Apples, Apricots, Bananas, Coconut, Custard Apple, Dates, Figs, Grapefruit, Grapes, Honeydew Melon, Kiwifruit, Lime, Mandarin, Mango, Nashi, Orange, Passionfruit, Papaya, Paw Paw, Peach, Pear, Pineapple, Plum, Pomegranate, Raspberry, Rock Melon, Strawberry, Tomato, Watermelon.

Dried fruits, both from tree and vine may contain oils or anti-oxidants that may not be fit for Pesach use. Drying boards may be dusted with chametz starch. Therefore no dried fruits should be used without proper investigation.

FROZEN FRUIT & VEGETABLES

Frozen vegetables are blanched prior to freezing and in some facilities chametz items may be blanched on the same equipment. Furthermore, possible chametz or kitniyot chemicals such as anti-foam, anti-oxidants (eg citric acid) may be placed in the blanch water. As such only frozen vegetables that have been investigated may be used.

In contrast IQF plain frozen fruit provided there are no added sweeteners or other ingredients may be used.

GLUTEN FREE

Products must bear a KLP hechsher or specifically listed in the Pesach list. There are many products which may be 100% gluten free but are still chametz.

GRAINS & SEEDS — QUINOA

Quinoa is still subject to much Rabbinic controversy. Some Rabbis opine that as it is also made into a flour and can be used in baking the custom of kitniyot applies to it in the same way as it applies to maize. Others opine that as it was not known in the western world until recently, it could not possibly have been included in the custom. Others point to a problem of shared equipment and facilities with chametz flour. The KA therefore recommends that ONLY Quinoa with a reliable Pesach hechsher be used such as OU-P or Star-K P. Star-K

recommends the following procedures for checking Quinoa for insects:

Place Quinoa (no more than 500g at a time) in a strainer with holes small enough that it won't fall through, ideally #15 - 25 size mesh. Shake the Quinoa over a white paper or lightbox for approximately 25 - 30 seconds.

Check the surface of the paper or lightbox for insects. If any insects are found, the Quinoa should not be used. The most common insects being found are booklice and sometimes mites.

HONEY

Honey and glucose blends may contain actual chametz and are packed on the same lines as regular honey. Therefore only honey which has been investigated should be used.

JUICE — FRUIT AND VEGETABLE JUICE

No locally produced juice is acceptable, unless bearing reliable Rabbinic supervision or listed in this directory.

MATZAH

With "Kosher for Pesach" Rabbinic endorsement only.

N.B. Matzah and Matzah-Meal are produced by many companies for year-round use and are not necessarily Kosher for Pesach.

All Matzah and Matzah-Meal must bear a Kosher for Pesach sign or label, otherwise they cannot be used on Pesach.

MATZAH - GLUTEN FREE

There are various Gluten Free Matzah Style crackers on the market. These are NOT matzah at all and the mitzvot of the seder night CANNOT be fulfilled using these crackers. Matzah must be made using flour of the five grains. Wheat, oats, barley, rye and spelt. These crackers use no flour of these kinds and use instead ingredients like tapioca starch or potato starch and are therefore not matzah. Their blessing is shehakol.

Special gluten free oat matzah is specially made for Pesach and is specifically labelled kosher for the seder night and the only ingredients are oat flour and water. Please be careful to ensure you fulfil the mitzvah with proper matzah.

NUTS

Only non-shelled or shelled unprocessed (i.e. unsalted, uncoated, unroasted, unground) Australian Pecans, Almonds, Cashews, Hazel Nuts, Macadamia Nuts, Pine Nuts and Walnuts may be used.

As some nuts may be coated or treated with Kitniyot or chametz coatings, consumers must ensure that shelled nuts have no coatings. If in doubt purchase only those with a reliable hechsher. The Kashrut Authority has supervised the milling of shelled nuts and these are available bearing the Authority's seal. Please check label carefully.

N.B. Peanuts are considered by some as kitniyot and therefore customarily not used on Pesach.

(In South Africa this custom in relation to peanuts is not widely practiced especially in relation to peanut oil. However the practice of Australian Jewry has been not to use peanuts on Pesach. Contact your own Rabbi.)

OIL

Pure extra virgin olive oil bearing an OU for year round use is ALSO suitable for Pesach even without a 'P'. Only cottonseed oil bearing a reliable Pesach rabbinic endorsement should be used for Pesach. This is because anti-oxidants that are used in production may be chametz.

SOFT DRINKS

Carbon dioxide can now be manufactured in Australia as a bi-product of the growing ethanol industry including ethanol produced from wheat. While there is one rabbinic authority that still permits carbon di-oxide made from chametz the vast majority do not.

As such The KA recommends that only carbonated drinks where the source of the CO2 has been verified as chametz free should be used.

SPICES

Spices may contain "aids to production" or other ingredients that are chametz; therefore only spices with a reliable Kosher for Passover Hechsher may be used.

SUGAR

During the milling and refining of sugar, various ingredients such as enzymes may be used that may be chametz. These are filtered out during the final refining of the sugar and therefore halachically all white sugar remains permissible for Passover.

VINEGAR

Vinegar may be distilled from ethanol that is chametz and may be distilled using chametz yeast. ONLY vinegar or imitation vinegar with a reliable hechsher should be used.

SECTION 1: CERTIFIED KOSHER FOR PASSOVER

These are products that have been investigated and formally supervised especially for Pesach. They represent the highest standard of Kashrut as applicable to kosher for Pesach. Other than raw foods some people purchase only these products for Pesach. Because the Code of Jewish Law encourages people to be especially strict on Pesach some people have a custom to use only kosher for pesach certified items for Pesach.

ALCOHOLIC BEVERAGES

Many alcoholic beverages acceptable through the year, even those kosher certified, are distilled from grain which is chametz and may not be used. In some, chametz yeasts may be used in the fermentation process. This includes Beer, Whisky, Bourbon, Rum, Liqueurs, Spirits, Vodka and Wine Based Drinks.

Therefore all alcoholic beverages must bear a kosher symbol specifically indicating that the product is "Kosher for Passover".

A range of Kosher for Passover alcoholic beverages are available from:

ENRICHED MATZAH

Egg matzah, matzah made using fruit juice instead of water, chocolate Matzah and other enriched matzah made using other ingredients beside Matzah flour and water in the traditional way, cannot be used to fulfil the Mitzvah of Matzah. Furthermore they are customarily not eaten during Pesach by Askenazi Jews even when bearing a reputable "Kosher for Passover" endorsement. This restriction does not apply to the elderly, sick or infants. Sephardim should consult their Rabbi.

MEAT

Meat produced in kosher butchers for year round use is not suitable for Pesach use. Buy ONLY Kosher for Pesach meats and smallgoods.

VILLAGE FINEST KOSHER BUTCHER

Order on line at www.villagefinest.com.au | Pre-packed frozen meat and small goods are available from Krinskys. Fresh pre-packed meat available from Supamart IGA - Dover Road, Rose Bay.

Please ensure products are sealed with the diamond KA Glatt Kosher Meat 'Kosher for Pesach' seal.

M & M POULTRY

SECTION 2: KOSHER FOR PASSOVER — NOT CERTIFIED

These products should preferably be purchased before Pesach.

These are products that while not being formally certified for Pesach have been determined to be of a standard that is appropriate for the fully observant kosher consumer even in the first instance. They are products that are inherently kosher for Pesach or the possibility of contamination with *Chametz* is considered insignificant.

VEGETABLES

All raw vegetables contain no chametz. However it is customary for Ashkenazim not to eat rice, maize (sweet corn) and leguminous (pulse) vegetables such as all beans and peas (including string beans) because of their similarity to the five grains (wheat, barley, oats, rye and spelt) which are actual chametz. These are called "KITNIYOT" (This custom is not widely practised amongst Sephardim - ask your rabbi for guidance. See Kitniyot section).

Fresh raw vegetables (including raw whole herbs) must be washed and thoroughly checked for insects.

Asparagus, Avocado, Baby Spinach, Beetroot, Bok Choy, Broccoli, Brussel Sprout, Cabbage, Carrots, Cauliflower, Celery, Cucumber, Dill Leaves, Eggplant, Fennel, Ginger, Leek, Lemon, Lime, Lettuce, Licorice Root, Marjoram, Mint, Mushroom, Onion, Oregano, Paprika, Parsnip, Fresh Green Peppers, Parsley, Marrows, Potato, Pumpkin, Radish, Rhubarb, Rosemary, Silverbeet, Spinach, Squash, Swede, Sweet Potato, Thyme, Tomatoes, Turnip, Yam, Zucchini.

Many companies provide cut and peeled vegetables or washed salad vegetables. These should not be used without reliable investigation as potentially chametz anti-oxidants such as citric acid are often added to the wash water. Preservatives such as sodium metabisulphate are kosher for Pesach

BILLABONG PRODUCE

ONLY when bearing P at the end of date code

P Crushed Tomatoes - 3kg can or 700g bottle

Quick, Easy & Deliciously Tasty

Pesto, Bocconcini & Tomato

INGREDIENTS

- 3 CORN THINS® slices
- Cherry tomatoes (sliced)
- 3 Kosher Bocconcini balls (sliced)
- 2 Tbsp. Pesto

TO MAKE PESTO

- 3 cups basil
- 4 cloves of garlic
- ½ cup of olive oil
- ½ cup pine nuts
- Juice of 1-2 lemon
- ½ tsp Kosher salt

DIRECTIONS

Spread pesto across CORN THINS® slices, then layer on bocconcini cheese and cherry tomatoes. Add pepper & salt if desired.

TO MAKE PESTO

Place basil, garlic, pine nuts, lemon & salt into a blender or food processor. While blending these ingredients slowly add oil till all is well mixed. Taste & add more salt if desired.

The delicious **POPCORN** taste of **CORN THINS®** slices makes them the perfect crispbread to be eaten anytime of the day.

CORN THINS® products can be found in the biscuit aisle of most supermarkets.

www.cornthins.com

KITNIYOT

Approved Kashrut Agencies for Kitniyot products:

	OU Kitniyot Logo
	Bedatz Bet Yosef Kasher for Pesach - Kitniyot
	Star S

Kitniyot are customarily not eaten on Pesach by Ashkenazi Jews. The origins of this custom are not 100% clear and many reasons have been given for the custom including the following:

- The seeds can be ground into flour which may create a mix up with wheat flour.
- After cooking they may appear like chametz foods.
- The seeds are similar to grain kernels and come in a sheath or pod.
- Generally speaking all legumes are also kitniyot because they grow in pods.

The reasons can lead to interesting anomalies. Dried pumpkin seeds which are seeds in a pod, are considered kitniyot. However pumpkin cooked whole including obviously with its seeds is not problematic, and the now cooked seeds can be eaten. This is because a whole raw pumpkin cannot be confused with anything chametz. Similarly dried fennel seeds are kitniyot but the bulb, root and greens are not. In contrast green peas are considered kitniyot because they are a legume and come in a pod. Wherever in the guide we write seed next to the kitniyot item it is specifically only the seed that is kitniyot.

The following foods ARE Kitniyot:

Alfalfa
Amaranth
Aniseed
Anise Seed

Aspartame
Beans - All including Edamame
Buckwheat
Caraway Seed
Cardamon
Chick Peas
Coriander Seed
Corn, Maize
Corn Starch
Cumin
Fennel Seed
Fenugreek Seed
Flax Seed
Green Beans
Hemp Seeds
Lentils - All
Linseed
Millet
Mustard and Mustard Seeds
Pea
Peanut
Poppy Seed
Pumpkin Seed
Rapeseed
Rice - Raw or raw organic, white or brown rice varieties (no additives)
Safflower Seed
Sesame Seed
Snow Pea
Sorghum
Soy Bean
Soy Lecithin
String Bean
Sugar Snap Peas

Sunflower Seeds

Teff

Tofu

The following are NOT Kitniyot but require thorough checking for foreign seeds:

Carob

Chia Seeds

Guargum

Locust Bean Gum

Saffron

The following are NOT Kitniyot but some customarily do not use them. The Kashrut Authority will certify products that contain garlic.

Cloves

Garlic

SECTION 3: CHAMETZ FREE

These products are produced chametz free but are of a standard that in the first instance should not be used. These products should preferably be purchased before Pesach.

These are products that have been investigated and found to be free of *Chametz*, but are not certified as such and are not up to a standard generally practiced by international kashrut agencies. These products are listed for use by persons who may not have access to certified kosher for Pesach products or are not yet ready to take upon themselves the stricter approach.

TEA

WARNING: Instant Tea may not be used without a reliable hechsher.

Herbal Teas come in two forms. The first is pure leaf with no additives such as pure chamomile or pure mint leaves. These are acceptable for Pesach

(Many people have a custom to use only tea made under supervision). Herbal teas that come with multiple ingredients including flavours should not be used for Pesach unless under a reliable kosher certification.

LAUNDRY DETERGENTS

Ordinary laundry bar soap detergent powders and liquid detergents may be used for the laundry purposes, but customarily are not used for dishes without being found to be kosher for Pesach. Many ironing-aids and sprays contain actual chametz (starch or chametz ethanol) and may not be used for Pesach.

The following have been found to be chametz free.

Crisp

Fabulon

Fabulon Lemon

Preen

Sard Wonder Spray

Sard Nappy

Sard Soaker
Sard Soap
Sard Stain Stick
Napisan

PAINT, INK, SHOE POLISH

All inedible products may be used for Pesach.

PAPER & PAPER GOODS

Paper and paper goods (plates, paper towels, paper serviettes, etc.) are all kosher for Pesach eventhough they may contain wheat starches that are chametz.

In accordance with the letter of the law authorities consider starch in the making of paper plates as non-food nullified before Pesach and allow their use. Further more Shulchan Aruch discusses the use of starches in the making of utensils and considers that after two months the starch loses its ability to be able to leech into food products. As such if the manufacture date of the paper goods is older than two months there is no Pesach problem.

However as with all things on Pesach, where we are often stricter than the letter of the law, many do not use paper plates in contact with food unless they have a kashrut endorsement. Similarly recycled paper products are subject to this stringency, as they may be made with recycled paper pulp that contains wheat starch.

Coated paper plates produced in the United States that may contain maize cornstarch, according to most authorities are not even subject to any stringency due to maize corn-starch being only of a kitniyot origin.

All Aluminium foil rolls are produced without question in a manner that allows their use on Pesach.

While Aluminium foil containers used to be coated with either non-kosher or chametz lubricants this appears to now no longer be the case and all foil containers may be used. If one wishes to be strict they should be rinsed before use. Foil containers product of the USA are according to the OU all ok.

In general plastic tablecloths, plastic bags, plastic plates, plastic bowls, plastic cups, plastic cutlery, expanded polystyrene (foam) cups and paper cups (hot or cold) are produced chametz - free. Note however that some plastic tablecloths and some plastic bags do come with a fine powder film and this is quite common; care should be taken as the powder may be chametz starch.

All bamboo pulp crockery and cutlery is suitable for Pesach use. All sugarcane

pulp crockery and cutlery is suitable for Pesach use.

For those wishing to be stringent the following branded and non- branded products have been investigated and found to be chametz - free based on information supplied by the manufacturer. They have not been produced under supervision.

COSMETICS & TOILETRIES

Many cosmetics and toiletries, particularly liquids, contain ethanol and other ingredients manufactured from grain derivatives, which are chametz. In general, all talcum, baby, face and foot powders, eye shadow, hand lotions, cold cream, eye liner, mascara, blush and rouge, and similar “solid” or “lotion” or “cream” products that are not fit for human consumption are permitted to be used on Pesach, even if containing chametz. However one must be certain that they are not fit for human consumption. They do not have to be unfit for animal consumption. Products that contain visible oatmeal flakes should not be used as the oatmeal can be separated and theoretically made edible after washing.

Perfumes and liquids such as cologne and au de perfume usually contain ethanol and may indeed be edible. Therefore unless the inedibility of the final product can be determined they may not be used. Deoderants and Hairsprays, while maybe containing ethanol, are almost certainly inedible.

Special care should be taken in regards to “corn starch” powder as it may be “wheaten corn starch” which is chametz. Only maize corn starch powder is acceptable (Kitniyot).

Some people have the custom not to rely on the inedibility of a product and use only products that contain no chametz whatsoever. The following groupings list such products that according to information provided by the manufacturers are found to be chametz free (whether inedible or not).

COSMETICS

All the products of the following brands contain no chametz whatsoever unless indicated otherwise. This list comprises perfumes and colognes, make-up, make-up remover, lipstick and nail-care products.

They are permitted whether inedible or not.

GUINEA PIGS & RABBIT

Courtesy of Star-K

They should be fed pure alfalfa pellets. Make sure it is pure alfalfa since it is common to add grains. Dried alfalfa may also be given. This can be supplemented with a mixture of cut-up fruits and vegetables - carrots, broccoli, grapes, apples, melon, kale, parsley, oranges, celery, sunflower seeds and cabbage.

Guinea Pigs especially will benefit from kale, parsley and oranges

Hamsters especially will benefit from apples.

SECTION 5: MEDICINES AND BABY FOODS

These are products that are of course fit for human consumption but because they are for infants or people who are unwell attract their own legitimate leniencies.

BABY FOOD

The feeding of an infant on Pesach is a complex matter that needs careful assessment together with your baby's doctor and nutritionist, especially as wheat from which matza is made can easily become an allergen early in life. If necessary seek advice from both your doctor and Rabbi. The Rabbi will at all times take into account the halachic dictum that the health of the baby is paramount.

Parents of babies on special medically supervised diets, which contain chametz, must contact their rabbi for directions. Again the rabbi will at all times take into account the halachic dictum that the health of the baby is paramount. If a child is on a special formula, please also consult your rabbi or The KA for advice.

Almost all manufactured baby foods contain chametz in one form or another and should only be used when bearing rabbinic supervision.

In general, when necessary, the practice not to use rice or leguminous vegetables (kitniyot) is suspended. A rabbi should be consulted. If rice and the other restricted vegetables are used they should be served in separate utensils kept only for the baby. These utensils should be washed in a sink not used for Pesach utensils.

Special care should be taken with regards to "corn starch" baby powder as it may be actual "wheat starch" and actual chametz. Only maize corn starch baby powder is acceptable (Kitniyot).

Parents of infants should not panic, Jewish families have been successfully keeping Pesach without any ill effects for literally thousands of years.

The KA has investigated the following baby formulae and these may be used if required. They invariably contain kitniyot and may contain minute amounts of actual chametz which can be considered nullified for the use of children. Utensils should be kept separate from any other Pesach utensils. If anyone needs to use a particular baby formula they should contact Rabbi Gutnick on rabbig@ka.org.au

This is only for the use of infants and toddlers who cannot tolerate anything else.

BABY CARE

In general all shampoos, conditioners, soaps, powders, lotions or creams etc are acceptable due to them being inedible. Wheaten corn starch is edible and must NOT be used. It must be sold with the chametz.

Bonjella – **NOT ACCEPTABLE FOR PESACH**

Infacol Wind Drops (for Colic) are permitted for babies ONLY

*Orased Jel

*Panadol Children 1 month - 1 year colourfree baby drops

Items *asterisked contain non-kosher ingredients but NO chametz ingredient, and may be used for children.

Baby Wipes - All brands of alcohol free baby wipes may be used on Pesach.

MEDICINES

The following are guidelines for the uses of medication on Pesach for individuals who are ill:

- a. Creams, pills designed to be swallowed (not chewed or dissolved in the mouth or in water)and injections may be owned and used on Pesach even if they contain chametz, since they are a non-food and inedible.
- b. This covers most medicines used by adults. It is permissible to grind pills, even on Shabbat and Yom Tov, that are normally not designed for chewing and are therefore permissible for Pesach, and mix that powder into food items so that a child can take a required medicine on Pesach. However a doctor must be consulted to make sure that the child is getting the correct dosage and that the potency of the pill is not compromised by grinding it up.
- c. Liquid or chewable medications for children are edible and flavoured and therefore required to be Kosher for Pesach. If a pesachdik alternative can not be found one should contact their Rabbi or Rabbi Gutnick for further advice.

Rabbi Gutnick can be contacted specifically for Pesach medication questions only, on the following dedicated whatsapp number: + 61 411 657 372

Liquid medicines, chewable pills and pills coated with a flavoured glaze are edible and may contain chametz. Therefore:

- a. If possible, they should be replaced - under the direction of a doctor - with a non-chewable, uncoated pill.
- b. Alternatively they may be placed in a vege-capsule (available at most pharmacists including Gaslight) making it a non-food which may be a better solution than substitution.
- c. If any of the above is not possible and the person is in a state of sakanah or safek sakanah (any possible danger to human life), they may own and consume the medication. The same applies if the condition is not yet a safek sakanah but may deteriorate. A rabbi should be consulted as to whether it is preferable to purchase the medicine before or on

Pesach, and as to how to dispose of the medicine once the danger passes

- d. If a or b above are not possible and a doctor determines that there is no possibility of sakana if the person does not take the medicine a rabbi should be consulted. He may be able to determine that the medicine does not contain chametz or he may decide that the medicine may be consumed due to the nature of the patient's condition. Medicinal items which contain kitniyot are permitted for people who are unwell.
- e. While all the above rules apply, some authorities urge that when possible kosher for Pesach medications be used and this is the practice in many communities that publish detailed Pesach medicine lists. The KA also publishes a full medicine list, a copy of which is available by contacting the KA office and is also on our website. The KA also has access to additional information that may not be on the list. Please email Rabbi Gutnick on rabbig@ka.org.au with any specific enquiry, and we will do our best to assist.

People should exercise extreme caution and consult with their doctor and rabbi before making any decision to not take a medicine.

Part 2
**A GUIDE TO
KASHERING
A PESACH
KITCHEN**

33rd Edition
**PESACH
GUIDE**

5784 • 2024

KASHERING THE PESACH KITCHEN

In the weeks before Pesach, the house and particularly the kitchen and eating areas must be thoroughly cleaned to remove all trace of Chametz. Shulchan Aruch records and instructs that the **“people of Israel”** are particularly **“Holy”** and remove even the tiniest insignificant amounts of chametz.

Stoves, eating utensils, etc., which have been used for Chametz the whole year through, unless kashered cannot be used on Pesach. They must be thoroughly cleaned and steps taken to ensure they will not be used inadvertently.

This section deals with preparing the kitchen and **“kashering”**. It is not a complete coverage of the many laws of Pesach and should only be used as a basic guide.

Questions arising out of circumstances not covered by this guide should be directed to your rabbi, or to The Kashrut Authority.

All kashering, etc., must take place before the time for removal of Chametz on the day before Pesach.

THE KITCHEN

CUPBOARDS AND PANTRY

1. All Chametz utensils and all Chametz food that will not be eaten before Pesach and will not be disposed of but will be sold, should be locked away in a designated cupboard or room, which should be locked or sealed with tape so that its contents are not accidentally used during Pesach. (See Selling the Chametz).
2. All shelves should be thoroughly cleaned and preferably lined.

COUNTER-TOPS & KITCHEN TABLE

These may be kashered by pouring boiling water directly from a pot or kettle over the entire surface after thorough cleaning.

The following material may all be kashered: Granite, Marble, Metal, Wood, Laminex, Formica, Caesar Stone, Quartz Resin and Corian.

(In the past The KA has not recommended the kashering of Caesar Stone and the like in accordance with the view of the “Yad Yehuda” who compares these materials that are a mixture of ground stone and resin to earthenware.

Many authorities argue with the Yad Yehuda including the poskim of the OU and CRC. As such The KA has reviewed its position and we allow the kashering of these materials.)

Some authorities opine that Laminex, Caesar Stone, Corian and other resin based materials as well as plastic surfaces may not be kashered; those who wish to be strict should cover those surfaces.

REFRIGERATOR

- 1.** All removable parts must be removed and thoroughly cleaned. The interior must be cleaned thoroughly.
- 2.** Preferably shelf surfaces should be lined taking care to allow the free flow of air through the refrigerator.
- 3.** Refrigerator cleaner that contains ethanol as an ingredient may not be used as the ethanol is likely to be chametz derived.

STOVES AND OVENS

GAS STOVES

- 1.** All moveable parts must be removed and thoroughly cleaned. The body of the stove must be cleaned to remove all traces of grease and food particles.
- 2.** For convenience the grates on which the pots and pans actually rest and the catchment areas should preferably be changed for new ones that are only used on Pesach.
- 3.** If new parts cannot be acquired, the grates upon which the pots actually rest, can be “kashered” by the “glowing process”, i.e. they should be made to glow red hot. This can be done either by using a blow torch on the pieces to be glowed, or else by rotating them slowly over the actual flame of the gas stove until they glow in the dark. If this will damage the grates, some authorities permit the “light glowing” method for the grates as outlined in 4a
- 4.**
 - a.** The catchment areas, etc., should be kashered by the “light glowing” method., i.e. the metal should be heated on the side facing the food until the other side of the metal becomes hot enough to scorch paper.
 - b.** Alternatively stove top and catchment areas (not the grates) may be kashered by the “scalding process”. The stove should not be used

for 24 hours. A few nuts and bolts or rocks should be heated until red hot and placed on the stove top and boiling water poured all over the surface moving the heated bolts over the entire area.

5. A practical way to achieve 3 and 4 above is as follows: ***After a thorough cleaning of the parts to be “kasherred”, the stove should be reassembled and all gas jets turned on full. A sheet of metal the size of the top of the stove should then be placed over the flames. The heat thus generated under the metal sheet after about five minutes is sufficient to “kasher” the stove. This method achieves “light glowing” for the catchment areas and usually even “full glowing” for the grates.***
6. The solid parts of the stovetop and the back plate of the stove (i.e. any part that can come in contact with pots or pans) should be kasherred as in 4a, 4b above and/or covered with a double layer of strong aluminum foil. If this foil tears it should be replaced immediately. (It is wise to keep a few pieces of ready cut foil handy in case some is needed during Yom Tov.)
7. Stove knobs, etc., should be thoroughly cleaned and preferably covered or replaced.
8. Many authorities do not permit the kashering of enamel. Therefore, enamel stovetop and enamel catchment areas should preferably be covered with two layers of foil or a Pesach Blech, after kashering. If this is not possible, the “light glowing” method will suffice. Enamel parts should not be kasherred by the scalding method.

ELECTRIC STOVES

1. The tops and the catchment areas etc. should be “kasherred” in the same manner as the gas stove.
2. The rings should be turned on to full heat allowing them to become red hot.
3. The centre knob should also be made red hot or else, after cleaning, carefully cover the knob with a double layer of aluminum foil.
4. Be careful that any foil used on electric stoves does not come in contact with exposed wires, elements, sockets etc.

CORNINGWARE STOVE TOP

1. Turn to the highest setting for ten minutes.
2. Boiling water should be poured on the portions of the stove between the burners, and areas between burners should be covered with a Pesach Blech or 2 layers of aluminum foil.

GLASS TOP STOVE TOP

This should be kashered by turning on full for a half hour , pouring boiling water on the surface around the embedded elements, and then covering the area around the elements with a double layer of silver foil. The place of the element can be left uncovered as the full heat will kasher the glass directly on top of the element.

INDUCTION STYLE STOVE TOPS

Where the surface on top of the element does not become hot – this should be kashered by pouring boiling water on the entire surface of the stove top. One should then cover as much of the stove top as possible with silver foil. If the particular model will allow the element to work while covered with silver foil – this should be done.

If this can not be done - as it is the custom of Ashkenazim not to kasher glass, preferably the stove top should not be used.

In circumstances of need please contact Rabbi Gutnick for further instruction.

OVENS

- 1.** It is preferable to clean the oven and not use it at all during the eight days of Pesach, due to the difficulty associated in cleaning the oven walls as well as the oven parts.
- 2.** If the oven must be used it should be "kashered" as follows: All removable parts, & the interior walls must be thoroughly cleaned.
- 3.** The oven, with the shelving inside, should be turned on to maximum heat for an hour.
- 4.** If one wishes to be scrupulous the grates or shelves should be "Kashered" by the "glowing process". This can be done by placing them on the top of the stove and turning on the gas flames and then allowing the grates to become red hot.
- 5.** A griller tray or any surface upon which food was placed directly, not by means of a pan or baking tray, can only be kashered by the full "glowing" process.
- 6.** Many authorities do not permit the kashering of enamel for Pesach and therefore require that the enamel walls of an oven be covered with foil or an insert.

PYROLITIC OVEN

1. A Pyrolitic Oven that undergoes a cleaning cycle is considered fully kashered.
2. The racks which are not in the oven during the cycle must be kashered seperately as in "Ovens" points 3 & 4 above.

MICROWAVE OVENS

1. These should preferably not be used.
2. If necessary, the oven should be cleaned of all surface dirt and not used for 24 hours. A glass of hot water should then be placed in the oven, and the oven turned on so that the water boils and spreads steam throughout the entire oven.
3. The oven should then be turned off and wiped down with a clean cloth and cold water.
4. Any trays upon which food is actually placed should be covered with a double layer of Glad Wrap after kashering.

WARMING TRAY

A metal electric warming tray (Israeli style Shabbat Platter), or Glass top warming tray, – should be kashered by cleaning, turning on full for one hour, and then covering with two layers of silver foil. Some glass tops may crack if covered with silverfoil so care must be taken.

SINKS

METAL SINKS

1. The whole sink and particularly the drain area should be thoroughly cleaned and not used for warm or hot liquids for 24 hours prior to "kashering". All kashering must take place before the time for removal of Chametz on the day before Pesach.
2. If the crevice where the drain sieve is attached to the sink cannot be thoroughly cleaned, the "light glowing" method should be used at the crevice. (see Gas Stoves 4a. Above).
3. Bleach should be poured into the sink and allowed to sit in the crevice around the drain as well as in the drain pipe. Wait about ten minutes then rinse thoroughly. This helps to destroy any food residue.
4. A few nuts and bolts or small pieces of rock should be heated on a

fire and then placed in and on the sink. Boiling water should then be poured over the entire area of the sink and draining area as well as on the taps. The hot stones or metal should be moved around the surface as they serve to raise the temperature of the poured water back to the point necessary to "kasher" the sink. The sink and draining area should then be washed down with cold water.

5. If at all times only liquid chametz was poured into the sink it may also be kashered using just boiling water from a kettle ensuring an unbroken stream of water from the kettle.
6. The small strainer on the end of the tap should be removed or replaced for Pesach. The reason being that one may have accidentally dipped the end of the faucet into chametz during the year.
7. Methylated spirits, etc., should not be used for kashering.
8. Porcelain & Earthenware Sinks

These sinks cannot be "kashered". Boiling water should be poured over them and then they must be covered and bowls used for washing up or metal inserts constructed to fit inside the sink.

APPLIANCES

DISHWASHERS

Dishwashers should not be kashered for Pesach because they are too difficult to clean especially around the drain and seals. In case of need consult your rabbi or The Kashrut Authority.

MIXERS AND KITCHEN WHIZZES

1. These should preferably not be used.
2. If necessary, beaters, blades, bowls etc must be purchased new.
3. The body of the machine must be spotlessly cleaned and then preferably covered.

ELECTRIC ROTISSERIES, BROILERS

These should not be kashered for Pesach. In case of need consult your rabbi or The Kashrut Authority.

NESPRESSO/COFFEE MACHINES

If you have a Nespresso coffee machine, using your machine over Pesach is

possible, only using the kosher le Pesach Nespresso coffee blends (product of Switzerland) as seen in our Pesach Product Guide – and here's how:

Firstly, it's important you thoroughly clean all surfaces and storage containers, then, pop into a Nespresso Boutique to purchase a "Descaling Kit". Descale as per the express instructions, including final rinses, then leave for 24 hours.

Then, fill your water container twice and run through your machine twice. Next, your milk warmer needs to be dipped in boiling water, however, if it has its own element, bring water to the boil in it, and over the edges.

Finally pour boiling water from the kettle directly over the spout. (Confused in any way? Call 1800 623 033 for Nespresso technical assistance). And voilà - kosher le Pesach coffee!

(Note, if your machine is not made by Nespresso, don't despair, best to call our office on 1300 KASHRUT or 02 9365 2933).

KITCHENWARE

Kitchenware not being kashered should be stored away and sold with the Chametz. (See Selling the Chametz)

DISHES

Porcelain, earthenware or china dishes; or utensils which may be ruined when immersed in boiling water; cannot be "kashered" and must be stored away and not used on Pesach.

ENAMELWARE

Enamel pots and pans should be treated as Earthenware and should not be kashered for Pesach. In case of need they may be kashered with the light glowing method. Enamel baking dishes should not be kashered.

GLASSWARE AND CORELLE

1. Glassware used only for cold or luke-warm food may be made fit for Pesach use by the "soaking method". The glassware must be completely immersed in cold water for at least 24 hours and then the water replaced two more times for a total of 3 x 24 hours.
2. Glassware, Pyrex and Corelle used for hot Chametz foods and liquids or for strong Chametz beverages such as whisky, cannot be "kashered" for Pesach in this manner and must be stored away and not used.

The Sephardi community has differing customs in regards to glassware. Please contact your Rabbi for advice.

METALWARE, CUTLERY, POTS & PANS ETC.

- 1.** Metal utensils - except for those used for baking or frying - may be "kashered" by the "scalding process". All articles to be "kashered" should be thoroughly cleaned and not used for 24 hours before. Care should be taken that baked-on grease, etc., be removed. Kashering must take place before the time of removal of Chametz.
- 2.** A large pot should be filled with water and brought to the boil. If one uses a Chametz pot to Kasher, it should be kashered first.
- 3.** The utensils should be immersed in the boiling water by means of a piece of string or a string bag. A large utensil may be rotated part by part until its entire surface has been immersed. It is preferable that the water continues to boil while the utensils are being immersed; however, if the water ceases to boil they should remain in the water till it begins to boil again. They should then be removed while the water is still boiling (Do not leave them in the pot and then pour out the water). Immediately after removal utensils should be rinsed with cold water.
- 4.** If a pot is too large to immerse into another pot of boiling water, then water should be boiled in the pot to be kashered itself, and then a large stone, previously heated on a fire, should be dropped into the pot of boiling water thus allowing the boiling water to run down the rim and outside of the pot. Care should be taken to ensure that the boiling water spills over the entire rim of the pot. The pot should be emptied and rinsed with cold water.
- 5.** The lids of pots and pans should be kashered by immersion in boiling water after they have been thoroughly cleaned. All handles and knobs should be unscrewed before cleaning and kashered separately. If handles cannot be unscrewed, then the joint should be thoroughly cleaned, and boiling water poured over the joint and the entire handle.
- 6.** Metalware with joints or engravings on the inside of the utensil (i.e. where it comes into contact with Chametz on a continual basis) need first to have meticulous care taken to get into the crevice and clean it thoroughly and be kashered at the point of the engraving or crevice by the 'light glowing' method. The crevice needs to be heated on the side where it comes into contact with food until the other side of the metal becomes hot enough to scorch paper.
- 7.** Similarly a pot with a tightly curled rim needs to be thoroughly spotlessly cleaned at the rim and then the "light glowing" method employed on the rim. This can easily be done by slowly rotating the rim of the pot over the stove fire. The hinge of a hinged pot cover also

needs to be thoroughly cleaned and the "light glowing" method used on the hinge.

8. After kashering is complete, it is customary to re-kasher the pot in which the kashering took place.
9. Alternatively to the "scalding method", the light glowing method may be used.
10. **Baking tins, frypans, rotisseries and spits**, used with no liquid or very little liquid must be caused to glow red. It is advisable not attempt to kasher these but to purchase new ones for Pesach. Frypans used for deepfrying only may be kashered with either the "scalding" or "light glowing" method.
11. **Non-stick frypans** with a plastic teflon coating should not be kashered for Pesach as they will be damaged. A non-stick frypan with a ceramic or stone based coating can be kashered by causing to glow red.

PLASTIC

1. It is preferable to purchase new plastic utensils for Pesach use as these are relatively inexpensive. However, plastic utensils that have not been used in direct contact with something that had actually been cooking on the stove may be kashered as follows:
2. If the utensil has been used with very hot liquids or foods, it should be thoroughly cleaned and "kashered" by the "scalding process". If this may damage the plastic, it is sufficient to pour the boiling water in an unbroken stream directly from the pot or kettle, over the utensils to be "kashered", making sure that the water covers all surface areas of each utensil.
3. If the utensil is used only to store cold food and liquids for longer than 24 hours at a time, it should be kashered by the "soaking process" as outlined under Glassware.
4. If the plastic utensil is used for both hot and storing cold, both methods, (2) and (3) must be employed.
5. Plastic utensils with scratches and cracks which cannot be cleaned properly, cannot be "kashered".

WOOD

Wooden utensils can be "kashered" by the "scalding process" outlined above for Metalware, but they must be thoroughly clean, and if necessary, sanded.

GARBAGE BINS

These should be cleaned before the time of removal of Chametz on the day before Pesach. If the garbage has not been collected by this time, the bin should be left outside one's property and its contents deemed to be absolutely ownerless and included in the "Kol Chamira" before the hour of the removal of Chametz. Do not forget to empty your vacuum cleaner bag!

TEA TOWELS, OVENMITTS AND POTHOLDERS

After thorough laundering, and provided they are not embroidered, these are permitted for use for Pesach. However, it is preferable to obtain a new set.

TABLECLOTHS

Tablecloths, which have been used for Chametz and are not embroidered, can be laundered and used for Pesach. Embroidered tablecloths cannot be kashered for Pesach. It is however preferable to purchase tablecloths for Pesach. N.B. Starch is usually Chametz.

STONEWARE

Utensils made of actual whole stone may be treated as metalware and may be kashered; however, stoneware (which is made from ground stone) may not be kashered. Most stoneware utensils available are in fact made from ground stone and cannot be kashered.

SIEVE

A sieve or strainer may not be kashered for Pesach.

TEVILAT KEILIM

New or kashered utensils purchased from a gentile requires to be teivelled in a Mikvah or body of water such as the ocean. Kasher utensils that remain the property of a gentile do not need tevilla. Only when they pass from the ownership of the gentile to the ownership of a Jew is Tevilla required. It is important to note that the only keilim that require tevila min hadin are metal and glass (which includes corelle and corningware). China, wood and plastic do not require tevila, although many have the custom of teivelling china without a bracha. Some teivel plastic as well.

While min hatorah (biblically) only metal requires tevila, chazal required glass to be toiveled as well. The reason is because, glass can be melted and repaired as metal. By contrast, plastic melts and burns, and therefore it does not require tevila. While in previous ages china may have actually been made with a glass coating, modern - day china contains no glass coating whatsoever. It cannot be melted and cannot be repaired with heat. The shine cannot be construed to be a layer of glass, therefore, mai'ikar hadin it does not require tevila. The above is a very important principle to be aware of. Firstly, it makes the process of kashering a kitchen easier. Secondly, you can sometimes be confronted by a situation where someone has a kosher home but you know that the owner has not toiveled their dishes. While failure to toivel does not render the food non-kosher, it is questionable whether one can drink water from a glass in such a home. But a hot cup of tea in a china cup would pose no problem whatsoever!

Of course, electric keilim pose a unique set of problems, as electricity and water do not go together. The most lenient view is that of the Chelkas Yaakov. He is of the opinion ¹ that since electrical appliances are plugged into the wall, they are not mekabel tum'ah and therefore do not need to be toiveled. However, even he argues ² that this would only apply to a George Foreman or toaster, because they have no other use other than when they are plugged in, in contrast to a kettle or urn that can be used independently to store water so the heter does not apply.

Many poskim disagree with this "plug-in" heter. Instead they suggest that if a keili cannot be toivelled, it should be given as an absolute gift to a non Jew and then borrowed back for use by the Jew. This circumvents the tevila requirement, because keilim owned by a non Jew do not require tevila. While this may appear to be a case of legal fiction, however when combined with the view of the Chelkas Yaakov, there is a sound heter to avoid tevila. However as stated, the Chelkas Yaakov does not apply his heter to urns and similar utensils.

It is, however, possible to toivel many electrical appliances in the following manner. The key is to ensure that the item is completely dry before attempting to use it. Once the item has been toiveled (and all it needs is a single dip), the water should be shaken off of it and it should be left to completely dry.

A George Foreman can be toiveled in the mikvah and then allowed to dry for several days in a warm, dry area. If one is in more of a hurry to use the appliance, a hair dryer can be used to dry it faster. If, after drying, the appliance blows a fuse when it is plugged in, it is a sign that it must be left to dry for longer. Similarly, devices that do not have the "plug-in" heter, such as kettle, urn or electric frying pan, can be toiveled in the the same way. The longer the keili is left to dry, the better the chance of avoiding damage, as long as the water is shaken off immediately after the tevilla.

A toaster has a more delicate electrical structure and the water will likely

cause permanent damage. Similarly, if the part requiring tevila has an LED or LCD screen, it will likely be ruined by the water. In such cases, the "plug-in" heter together with giving the item as a gift to a non Jew is the best way to allow use of the vessel. For reasons too detailed to go into here some authorities opine that a vessel that will definitely be ruined by tevilla, does not require tevilla at all. Similarly some opine that a toaster does not need tevila at all as it is purely used to toast and is not used as a serving utensil at the table.

Another method is to completely dismantle the utensil and then rebuild it. Since the keili is now built by a Jew, the tevila requirement does not apply. However, this is a complicated solution, because taking it apart will not always remove the halachic keili status from the item. A rabbi should be consulted if this method is being used.

Of course, a base that does not come in contact with food - for example, the base of a blender or mixmaster - does not require tevila.

THE MITZVAH OF DISPOSING OF CHAMETZ

33rd Edition
**PESACH
GUIDE**
5784 • 2024

THE MITZVAH OF DISPOSING OF CHAMETZ

Besides the prohibition of eating Chametz on Pesach, there is a Biblical obligation to remove all Chametz from one's possession. The following is a guide to the fulfillment of this Mitzvah.

PRE-CLEANING THE HOME FOR PESACH

Before Pesach the home must be thoroughly cleaned and Chametz removed. The following is a checklist of some of the places to look for Chametz.

- Arts and crafts supplies (sometimes made with chametz, e.g. noodles, barley, play-doh)
- Attic
- Baking supplies (baking pans, etc.)
- Bar
- Basement
- Bathrooms
- Bedrooms
- Behind furniture (See 1)
- Benchers (Grace After Meals booklets) (See 2)
- Bicycle baskets
- Bird cage
- Bird food
- Biscuit tin
- Books (See 2)
- Bread box
- Briefcase
- Broom (shake out)
- Cabinets
- Cake tin
- Candle sticks and tray

- Car (between and under seats, boot, glove compartment, ash trays, baby seat, under car mats, in station wagon)
- Carpet (underneath if not wall-to-wall or if torn)
- Carpet sweeper
- Clothing (pockets, cuffs)
- Crawl space
- Cook books
- Cosmetic bag, drawer, shelf
- Cot
- Cuffs
- Cupboards
- Desk drawers
- Detergent shelves (where detergents are kept)
- Dining room
- Dining room buffet
- Dining room table, chairs
- Dishwasher
- Drawers
- Electric broom (check bag)
- Factory
- Fish tank
- Freezer
- Garbage
- Garbage cans (outside)
- Hallway
- Handbags
- High chair
- Jewellery box
- Kitchen
- Kitchen table, chairs
- Locker
- Lunch box
- Mailboxes
- Medicine chest
- Milkbox
- Office
- Oven
- Pantry
- Perfumes
- Pet food
- Pet house
- Playpen
- Play room
- Pockets
- Porch
- Pram
- Purse
- Radiator (behind and under)
- Refrigerator (See 1)
- Safe
- School bags, books, locker & desk
- Sefarim (books) (see 2)
- Shelves
- Shopping cart
- Sink (behind and under)
- Stairs (between and under)

- Storage bin, room
- Storage shed
- Store
- Stove
- Stroller
- Study
- Suitcases
- Tallit bag
- Travel bags
- Toy cars, wagons and riding toys
- Toy furniture
- Toys, toy chests
- Truck, see: Car
- Wallet
- Window sills
- Work bench
- Work shop
- Vacuum cleaner bag (empty out)
- Zemirot booklets

1. Furniture or appliances, which cover Chametz (eg. refrigerator, stove) and can be moved - should be moved. If you will be unable to move it during the Bedikah (search for leaven) on the night of erev Pesach, you may rely on the moving and cleaning done before the Bedikah. Nullification, however, is required.
2. Some authorities hold that Sefarim and books require Bedikah (searching) or locking away. Others hold that although Bedikah is not required, one should not bring to the table on Pesach a volume, which may have been used around Chametz. Benchers and Zemirot booklets cannot be cleaned properly from Chametz and should not be used during Pesach. They should be put away with the Chametz which is sold to a non-Jew

SELLING THE CHAMETZ

Chametz must not remain in one's possession over Pesach. People who possess stocks of Chametz, which cannot be removed or destroyed before the festival, may arrange for their Chametz to be sold to a non-Jew. Any area in the home, or any article such as clothing, dishes, etc., may be locked or closed up in a way that is not accessible on Pesach, and without any further cleaning, sold "as is" This is especially useful in times of need such as pregnancy, or illness, where one may not be able to fulfil the usual pre-Pesach routine.

The sale of Chametz is not just a mere ritual or legal fiction, but is carried out in a legal manner by a rabbi. The rabbi is empowered to conduct this sale on behalf of any individual wishing to sell Chametz. This should preferably be done in person, but may be done by means of an agent, or by sending a power of attorney to the rabbi. The empowering of the rabbi must take place before the time of prohibition on the Eve of Pesach, by which time the rabbi must have arranged the sale of all Chametz to a non-Jew. After Pesach the non-Jew is approached to sell the Chametz back to the original owners.

The Chametz, which is sold, must be stored away and locked up in such a manner that it should not come to be accidentally used. Many have the custom that the rabbi should be informed of the places where the Chametz lies. In the bill of sale we give the non - jew permission to enter our premises and take the Chametz if he so chooses. The cupboard or room is also legally rented to the non-Jew over the Pesach period, so that his Chametz does not lie in the Jew's property.

Please note that business premises, offices, factories, etc., belonging to a Jew must also be cleaned and all Chametz disposed of or sold.

A Sale of Chametz form is attached to this booklet or may be obtained from The Kashrut Authority or downloaded from our website.

SEARCH FOR AND REMOVAL OF CHAMETZ (BEDIKAT & BITUL CHAMETZ)

The final search for the Chametz by candlelight takes place this year on Thursday evening, immediately after nightfall. The search must be conducted in all seriousness and the house given this one final check for Chametz, even though a thorough cleaning has been carried out beforehand.

It is customary to place ten small pieces of Chametz around the house. (Care should be taken that they should not crumble). Some have a custom to wrap them in paper. A candle is taken and the special blessing recited. (Details can be found at the beginning of a Haggadah). The search then begins; during the search the ten pieces of Chametz are customarily swept into a paper bag by means of a feather. Only Chametz to be used the next morning can be left and put aside in a secluded and guarded spot. After the search a statement is recited that nullifies and makes ownerless all undiscovered Chametz. This is an important statement and negates any possibility of inadvertently possessing Chametz over Pesach. It should be read in any language that one understands.

It reads as follows:

“All manner of leaven (Chametz) that is in my possession that I have not seen or have not removed, or have no knowledge of, should be null and disowned as the dust of the earth.”

Chametz may not be eaten after Shabbat mid-morning on the day before Pesach. Then all leftover Chametz should either be disposed of. ***See “Erev Pesach That Falls on Shabbat” Booklet.*** After disposing of the Chametz the following statement is recited with all sincerity.

“All manner of leaven (Chametz) that is in my possession that I have seen or have not seen, that I have removed or have not removed, shall be null and disowned as the dust of the earth.”

REMEMBER:

Always burn the Chametz in a safe manner. Keep children a safe distance from the fire and never throw flammable liquids directly onto a fire. The fire should remain under adult supervision until it is completely burned out. Any burn should be immediately treated by being placed under cold water for twenty (yes twenty) minutes. Seek medical advice

Part 4
**THE MITZVAH
OF THE SEDER
NIGHT**

33rd Edition
**PESACH
GUIDE**

5784 • 2024

THE MITZVOT OF SEDER NIGHTS

The Seder nights hold a unique place in our religion and for our People. They are celebrated in one way or another. Performing the key Mitzvot in the properly prescribed manner makes the evening that so much more special.

The following are the key mitzvot of the night:

THE RECITAL OF THE STORY OF THE EXODUS

The Seder is not merely a social gathering. It must allow the opportunity for all to fulfil the command to recite the story of the Exodus of our people from Egypt. Therefore the Haggadah should be read and its contents understood. At the very minimum, the four questions should be asked followed by the answer - that we were slaves in Egypt and the Almighty freed us from our bondage. In addition the three paragraphs describing the meaning of Pesach, Matzah and Marror should be read in the language understood by all present. Everyone should also try and fulfil the Rabbinic ordinance of saying verses of praise (the "Hallel") which is also found in the Haggadah.

THE MATZAH

Minimum Requirements:

The Torah commands us to eat Matzah on Pesach night. One is therefore required not just to "nibble" Matzah but to "eat" it. This is defined as eating a piece "the size of an olive," i.e. the equivalent volume of 29 cubic cm of water. This translates to approximately 19 grams of matzah. This should be eaten in a time span of four minutes and while reclining to the left "in the manner of free men". (It is the practice to eat more than this minimum amount - see the chart following this article.) This minimum requirement is approximately 1/3 of a hand made shmurah matzah of 2/3 of a machine matzah.

SHMURAH MATZAH

Normal machine-made Matzot, even if produced for Pesach under reliable supervision, are almost always supervised only from the time of the milling of the flour.

"Shmura Matzah" (meaning "guarded" Matzah) has been supervised and protected from moisture, which could make it Chametz, already from the time of harvesting the grain. It is best to use "Shmura Matzah" at the Seder, at least when eating the minimum amount necessary to fulfil the obligation of eating Matzah on Pesach night. This is in keeping with the Biblical verse, "and you shall guard the Matzah". Shmura Matza can be either handmade or machine made. Many have the custom to use only hand made shmura for the seder.

MARROR - THE BITTER HERBS

Minimum Requirements

The eating of the Marror together with the Pascal lamb on Pesach night was a Biblical command. Today, the eating of the Marror on its own is an ordinance of the sages. The minimum amount of Marror to be eaten, can therefore be taken as a somewhat smaller quantity: approximately 19 cubic cm. If lettuce leaves are used (see below), this is the amount of leaves which would cover an area of approximately 20 cm x 25cm. By eating this amount in a time span of preferably 4 minutes (but if necessary, up to 7 minutes), one has fulfilled the obligation of "eating" Marror.

What can be used as Marror (Bitter Herbs)?

The Mishna Pesachim (39a) lists five types of plants which are considered as the "bitter herbs" to be used at the Seder. The commentaries can properly identify only three of these species today:

- 1.** Romaine Lettuce stalks or leaves (Cos variety) - (this should be carefully checked for insects.)
- 2.** Pure horseradish stalks or leaves
- 3.** Endives (escarole)

If horseradish, endives and the Romaine lettuce variety are unavailable, the next preference should be given to ordinary lettuce (the "crisp head" or "iceberg" variety).

In reality it is romaine lettuce that is the preferred type of Marror, even if it is not bitter. The fact that it may not have been as commonly used as horseradish was for the practical reason that lettuce was difficult to find in Europe at Pesach time, and also because, when found, it was very difficult to remove the worms and insects on it. The usual custom is to eat a proportionate mixture of both of these varieties (lettuce and horseradish) though, of course, either one alone is perfectly acceptable.

Having the correct amount of Romaine lettuce fulfils the mitzva. When one has too small an amount of horseradish one does not fulfil the mitzva at all.

The bitter herb used must be absolutely pure. It may not be mixed or preserved with anything, such as vinegar, which can affect its natural taste, nor can it be soaked in water for longer than 24 hours. Commercially produced horseradish relish, even if produced for Pesach, contains other vegetables and vinegar. This is true even of white horseradish relish. The blessing over the Marror may not be recited over such a mixture, as one has not fulfilled the obligation of eating Marror.

If none of the above mentioned herbs is available, then any bitter vegetable may be used in order to obtain a bitter taste, but as one does not really fulfil one's real obligation in this manner the blessing for Marror may not be recited.

THE FOUR CUPS OF WINE

Minimum Requirements

Our sages decreed that at four different stages of the Seder it is necessary to drink a cup of wine. The obligation is to "drink" the wine, not merely to sip or taste it. "Drinking" is defined as at least a half a cup of wine each time - the cup having a volume of at least 87mls. The wine should be drunk each time without interruption while leaning to the left "in the manner of free men" (though, if necessary, one may take up to 4 minutes to complete each cup).

What can be used as "wine" for the four cups?

All wines, grape juice and other beverages mentioned below must, of course, bear a reliable rabbinic endorsement that they are Kosher for Pesach (not just kosher).

- 1.** The best wine to use is a red wine because it reminds us of the spilled blood of the Jews as well as the miracle of blood. It should preferably not be sweetened with sugar (i.e. it should be naturally sweet or "dry") so that one tastes the natural taste of pure wine.
- 2.** If one finds it too difficult to drink wine the next preference is to use wine diluted with grape juice, so long as the stronger alcoholic taste of the wine is still discernible.
- 3.** The next preference should be pure grape juice.
- 4.** If one still finds this too difficult, the next preference is grape wine diluted with up to 50% water.
- 5.** The next preference is grape juice diluted with water - again in the proportion of up to 50% water.
- 6.** As a last resort, such products as raisin wine or any other Kosher for Pesach alcoholic beverage may be used.

WHAT TO DO ON THE SEDER NIGHTS

The following chart outlines the normal requirements if the Haggadah is followed faithfully.

All amounts and volumes mentioned are the absolute minimum amounts and are based upon “Shiurei Torah” by Rabbi A. Ch. Noeh.

WHAT ?	WHEN ?	HOW MUCH ?
Four cups of wine	<ol style="list-style-type: none"> 1. For Kiddush 2. After Ga'al Yisrael 3. After BirkatHamazon 4. Before Nirtzah 	<p>The Seder cup should hold at least a Reviyit i.e. 87 mls of wine. It is preferable to drink the whole cupful, without interruption, all four times. However if this is too hard, one need only drink the majority of the first three cups, and a complete cupful only the fourth time. If one cannot drink wine one may use grape juice.</p>
Matzah	<ol style="list-style-type: none"> 1. After reciting Hamotzi and Al Achilat Matzah 	<p>Preferably two Rabbinic k'zeitim, i.e. a total of 26gm are needed, one from the upper matzah and one from the middle of the three matzot, i.e. almost approx 13gm from each of the top two matzot. (However, if absolutely necessary, one may fulfil one's obligation by eating just over 19gm (1 Biblical K'zayit matzah.)</p>

WHAT ?	WHEN ?	HOW MUCH ?
Matzah	2. For the Afikoman	It is preferable to eat 26gm. If the Afikoman is not large enough, one may combine it with other matzah to make up the required measure. If it is too difficult to eat the entire 26gm one may eat just 13gm.
	3. For Korech	At least 13gm of the Hillel's Sandwich) bottom of the three matzot should be used.
Maror If you use only pure grated horseradish	After reciting Al Achilat Marror and for Korech	Preferably one "Biblical K'zayit" i.e., 29cm ² (approx. pure grated 30gms). If this is too difficult, one may eat 9cm ² of the horseradish
DO NOT USE COMMERCIALY PRODUCED JARS OF CHREIN FOR THE MITZVAH OF MAROR.		
Maror If you use only Romain Lettuce	After reciting Al Achilat Marror and for Korech	One "K'zayit" i.e., enough Romain lettuce to cover completely at least an area measuring 26 x 14cm.
<i>It is customary to use a proportionate mixture of both horseradish and Romain lettuce.</i>		

SHIUREI TORAH

The mitzvot of the Seder require that Matzah and Maror be "eaten" in appropriate quantities and not just nibbled. The minimum requirement for eating a food, as taught by the Rabbis of the Talmud, is a "Czayit" (=size of an olive). This must be eaten preferably within 4 minutes but if necessary in up to 7 minutes. A "Czayit" is approximately the size of 1 fluid oz or 29 cubic centimeters of water. The weight of 29cm³ of water is 29grams. Therefore most of the guides (including earlier editions of the Kashrut Authority Pesach Handbook) state that a "Czayit" of matzah is 1oz or 29grams of matzah. However according to most opinions this is incorrect.

In general all Torah measurements are established by volume rather than by weight. Therefore one "Czayit" of matzah is equivalent to the amount of matzah that takes up the 'volume' of 29 grams of water or 29ml. In reality the ratio of volume to weight of matzah compared to water is no more than 2/3. This means that the Shiur of a "Czayit" for the fulfillment of biblical mitzvot is approximately 19 grams of matzah, (not 29 grams) which is approximately 1/3 of a hand made shmurah matzah or 2/3 of a machine matzah. This amount is considerably less than the usually recommended amounts.

Furthermore, the requirement for a "Czayit" for a Rabbinic Mitzvah is only 2/3 the above measure. Therefore a "Rabbinic Czayit" is only 13 grams of matzah.

Therefore for Korach (the sandwich) all that is required is one rabbinic "Czayit" a quarter of a Shmurah Matzah or half a machine matzah. When eating the customary two "Czaytim" for Afikoman all that is required to be eaten is 26 grams of matzah (2 rabbinic "Czaytim") i.e; 1/2 a shmurah matzah or 1 machine matzah. Similar measurements apply to maror.

The above information allows us to ascertain the appropriate requirements of matzah and marror with realistic amounts, able to be consumed relatively easily by all the seder participants.

Live PESACH Q&A

with the KA's
Rabbinic Administrator,
Rav Moshe D. Gutnick

DELEGATION FOR POWER FOR SALE OF CHAMETZ

Fax to 02 9365 0933 or email to kapesach18@gmail.com

I, the undersigned fully empower and permit Rabbi Moshe D. Gutnick to act in my place and stead, and on my behalf to sell all Chametz possessed by me, knowingly or unknowingly, as defined by the Torah and Rabbinic law (eg Chametz, possible Chametz and all kinds of Chametz mixtures). Also Chametz utensils and Chametz that tends to harden and adhere to inside surfaces of pans, pots or cooking and useable utensils, and all kinds of live animals and pets that have been eating Chametz or mixtures thereof - all for Pesach 5784. He is empowered to sell all the above mentioned Chametz and lease all places wherein the Chametz owned by me might be found, particularly in the premises located at:

.....

and elsewhere. Rabbi Moshe D. Gutnick has full right to appoint any agent or substitute in his stead and said substitute shall have full right to sell and lease as provided herein. He also has the full power and right to act as he deems fit and proper in accordance with all the details of the Bill of Sale used in the transaction to sell all my Chametz, Chametz mixtures etc., as provided therein. This power of attorney to sell all the Chametz shall be deemed to be in conformity with all Torah, Rabbinic and civil laws.
